

Parent Night August 28, 2025
1st-5th grades

StJP II is thrilled to announce that we have lined up some dynamic special guests for our parent nights. This year's format will be a bit different from previous years. Mrs. Bogard will start the evening by welcoming parents and providing a brief update about the coming year. Following her introduction, distinguished speakers will take the stage to share their expertise and insights. StJP II has invested in these special guests because we believe in their messages and want to help everyone on their parenthood journey. **We encourage and welcome parents to attend both nights in the GSC, even if it's not your assigned evening.**

Agenda:

6:00 pm Parents gather in GSC (Gutierrez Student Center)
Welcome, Prayer, message from Principal: School Procedures & School Highlights for the year

Special Speaker: Smart Families 6:15 – 6:55 pm ALL ARE WELCOME

Homeroom teachers will hold two sessions for those with multiple children.

7:00 pm – 7:30 pm 1st Session in classrooms

7:35 pm – 8:05 pm 2nd Session in classrooms

August 27th & 28th Smart Families: Smart Families is a non-profit organization that works with families, school district leaders, school administration, and teachers to implement a pledge and educational program for families to delay giving their child a smartphone until high school. They provide all of the materials needed for staff and families to change the culture in their communities. Smart Families was started by parents who saw the need to bring a campaign to their school and have now built a team of researchers, teachers, spiritual leaders, and non-profit professionals who are dedicated to supporting and empowering others. We are eager to share their message with our StJP II parent community, and we hope you will join the 80+ other StJP II families who have already taken the Smart Family pledge.

“Phone Down, Brain On: Executive Functioning at Home”

28th Lauren Price: Lauren Price is the founder and director of Academic Independence Coaching (AIC). Her work focuses on consulting with schools and supporting teachers in implementing self-regulated learning and brain-friendly teaching and study strategies in the classroom. With over 20 years of experience in education, Lauren brings her passion for synthesizing research to create content and products that help keep her team and schools up to date with the latest successful strategies. Lauren holds a master's degree in Educational Psychology from the University of Houston.
