What is the Study Skills Program?

Study Skills is a school wide curriculum woven into our current subjects from grades 3 and up that includes listening, note-taking, test-taking, writing reports, memorizing, reading improvement, organization, time management, and more. These key strategies are delivered through the library program as well as integrated into the classrooms.

Why are these Study Skills important?

All students successful or struggling can benefit from learning strategies taught in our Study Skills program.

Who should attend?

All parents should attend to learn about these techniques to help their child be the best learner they can be at school as well as at home. This success can overflow to home, sports, and all areas of family life.

How do I sign up?
