

Our Library Needs Help

Bixler Library is back up and running after the COVID pandemic. Please come check out the new books we have bought. You can also connect to us through an app on your phone or through our church website. Please contact Kathy Schmucker if you need help with that.

While we have been busy updating our library's computer system, we have found that we are missing some books. This is where you can help. Please check your bookshelves, bedside tables, and desks to see if you have any books from the library. Many of these might have been taken out during COVID or before and we're trying to get our lost books back home. Here are some titles to start with. We'll add more later. So get those spyglasses out and help us return our books "home." Thanks for your help!

Children's Books

The Berenstain Bears, No Girls Allowed
There was an Old Lady Who Swallowed a Fly!
Lions at Lunchtime by Mary Pope Osborne
