

## ***Intent & Responsibility***

One of our roles as Christians is caring for creation. The intent of the [Faith & Environment](#) ministry is to raise **awareness** of Climate Change, offer **education** about climate change and related issues, and **action** that results in a healthier planet now and in the future.

The Faith and Environment Team strives to:

- Inform readers about Climate Change and offer suggestions on how citizens can respond constructively.
- Offer factual information with minimal bias
- Eschew inflammatory language
- Correct errors or inflammatory language via the Navigator.
- The F&E Editor is solely responsible for meeting our responsibilities regarding articles. Currently Thomas Strauch is the editor. Comments are invited; the text address is 330 283 9883
