

The early Christians whose stories are told in the book of Acts have no shortage of surprises. The resurrection sets off a host of unexpected events and changes for Jesus' followers, even changes within themselves. If our own spiritual lives have come to seem humdrum and every day, these stories will awaken in us a new desire for God's work in the lives of unsuspecting, ordinary people like ourselves. As we explore the journey of surprises in these texts, we will learn the spiritual habit of welcoming an unpredictable God and coming to expect the unexpected.

How do you respond to stories of healing? This week we explore two stories of healing as we continue in our worship series - The Surprising Acts of God. The book of Acts is Luke's testimony of the beginnings of the church. May we be on the look out for the surprising acts of God today and in the days ahead!

Questions for Reflection:

- What stands out for you in these scriptures about healing?
- How might you have responded to the beggar?
- What do you believe about healing?
- Can Jesus still heal?
- Could God heal through you? Why or why not?
- What surprising thing have you learned about God this week?

Spiritual Practice: God Sighting or Practice the Awareness of God

God Sightings®

Paying attention to and looking for God's presence in the world can help us to more fully know and experience God. *God Sighting* is a powerful spiritual discipline. The phrase God Sighting is a phrase trademarked by Group publishing and used as part of their VBS curriculum. But this isn't a spiritual practice just for

children. God sightings mean looking for God in our daily lives. When God Sightings becomes part of our daily life, when we are looking, we see and experience God in the world and God becomes more fully known to us.

A God Sighting could be something in nature, the kindness of a person, a prayer, situation, etc. God Sightings help us to notice, pay attention to and look for God. When this spiritual practice becomes part of our daily life, when we are looking, we see God at work in every aspect of life. This spiritual discipline is also referred to as the awareness of God's presence, practicing attentiveness, or practicing the presence of God. In order to practice attentiveness, we must first listen for God and watch for God's actions in our lives and community. Looking for God invites us to see the world through fresh eyes.
