## FOR IMMEDIATE RELEASE:

### **CFD2 Achieves Highest Possible Fire Protection Rating, Once Again**

Prairie Village, KS – September 4, 2020

Recently the Board of Directors for Johnson County Consolidated Fire District No. 2 (CFD2) met with representatives of the Insurance services Organization (ISO). Fire Chief Tony Lopez, and the CFD2 Board, were formally notified that CFD2 has been recertified as an ISO 1. This has placed us as 1 of 8, ISO 1 fire organizations in the state of Kansas. Additionally, out of nearly 30,000 Fire Departments in the US, CFD2 is 1 of only 393 in the Nation to achieve this rating!

This ISO 1 rating demonstrates that CFD2 has achieved the highest rating possible, based on credit earned in the following categories of the Public Protection Classification (PPC): Needed Fire Flows, Emergency Communication, Fire Department Operations and Water Supply. ISO's PPC program evaluates communities according to a uniform set of criteria, incorporating nationally recognized standards developed by the National Fire Protection Association (NFPA) and the American Water Works Association. CFD2 was initially certified as an ISO I in 2015. In the recertification process this year, CFD2 achieved an even higher score than the first time with 93.44 points out of a possible 100 points!

The many strong partnerships we have built throughout the region and Johnson County, like WaterOne and the Johnson County Emergency Communications Center, continue to prove quite valuable in reaching, and retaining, this excellent public protection rating. Chief Lopez commented, “We proudly respond to fire and emergency medical calls in the service of the great people of Northeast Johnson County, this is one of the many ways we demonstrate the excellent work the staff and members of CFD2 perform every day.”

With such a highly rated fire protection district, serving your community, you may want to check with your home or business insurance carriers to see if you qualify for any discounts. For the communities we serve, this is yet another reason to be #CFD2Proud!
