

How do my donations help people get jobs?

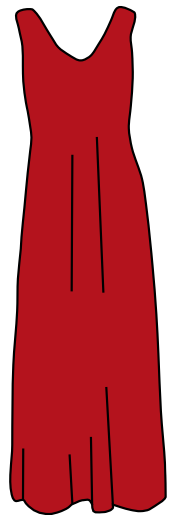

Every donated item begins its journey at the Working Wardrobes Donation Center, where it undergoes a quality check and is inventoried by staff and volunteers.

Professional garments go to our Career Success Center where we provide professional wardrobing services for thousands of individuals facing barriers to employment each year.

High quality items that do not go directly to clients go to one of our retail locations:
The Hanger Boutiques (Laguna Niguel & Tustin)
The Hanger Outlets (Garden Grove & Costa Mesa)

After receiving individualized workforce readiness services, job seekers are styled & take home your donated items, armed with the skills and confidence to achieve the dignity of work and build lasting economic stability for themselves and their families.

No donations go to a landfill! Damaged clothing is donated to one of 150+ partner organizations, who distribute it to individuals in critical need.

100% of retail profits fund the services and programs we provide to job seekers. (Last year alone, that helped over 1,100 clients.) This crucial funding starts with your donations!
