Family Home Preparation Service

Vital Information

Start-up Investment - $3,000 - $5,000

Break-even time - 6 months to 1 year

Estimate of Annual Revenue - $30,000 - $100.000

Estimate of Annual Profit (Pre-tax) $ 9,000 - $30,000

Description of Business There is a constant turn-over of tenants of apartments and buyers and sellers of town houses and single family homes. Every apartment, before it can be occupied by a new tenant, requires a thorough and professional cleaning and other preparation services. The same is true of town houses and single family homes.

In some cities of the U.S., especially in high growth areas, the turn-over is immense. Turn-over in apartments is by far the largest, town-houses come next and single family dwellings last.

While some larger apartment complexes will do their own preparation services, many will hire outside companies to perform these services. Sellers of real estate may do their own cleaning but in many instances will use an outside company.

Gift Basket Service

Vital Information

Start-up Investment - $2,500 - $5,000

Break-even time - 2 months to 4 months

Estimate of Annual Revenue - $20,000 - $40,000

Estimate of Annual Profit (Pre-tax) - $14,000 - $24,000

Description of Business A recent market survey of several Maryland suburbs (suburban Washington D.C.) revealed that there were 87 Gift Basket businesses listed in the Yellow pages. Additional checking indicated to us that almost 80% of these businesses were home-based operations.

This is certainly an ideal part-time business, and it has the potential to be built into something much larger over time.

Since a large majority of the working and more affluent middle class have less and less time to do all the things that need to be done in managing job, family and, home life businesses such as the Gift basket Industry that provide a time-saving service will continue to prosper.

Grocery Shoppers

Vital Information

Start-up Investment

Low - $2000 (advertising costs)

High - $20,000 (includes a van)

Break-even time - Two weeks to one year

Estimate of Annual Revenue and Profit

Revenue $15,000 - $1 million (solo at low end, with employees at high end)

Profit (Pre-tax) - $12,000 - $500,000

Food for Thought (and Profit) In this age of two-income families, it is a rarity to find a woman who has time to manage both her career and her home with the finesse she would like.

As the number of frozen meals and fast food restaurants attest, when something has to give, it is often the time spent in the grocery store. Grocery shopping is one of the newest and potentially lucrative services now being offered to the American consumer.

Just About Everything That You Need To Know About
Part-time Home –Based Businesses

Target Audience

Faith Institute of Entrepreneurship, Inc. (FIE) was found in March, 2003 to provide a self-sufficiency training program and curriculum to teach entrepreneurship (the mindset of owning a business) to at-risk youth and adults.

This mindset of self-sufficiency will enable at-risk youth and adults to think “making-a-job” vs. "getting-a-job”.

This training institution also provides life-skill, self-esteem self-sufficiency and start-a-business training curriculum that will enable at-risk youth and adults to “make-a-job”.

Workshop Series Dynamics

This **ONLINE** workshop / eBooks series was designed to give you an overall understanding of our selection of part-time home-based businesses.

As you may be considering these different business ventures at this time these **ONLINE** workshop / eBooks will enable you to "take a look" at each business and on a preliminary basis, decide if a particular business may be suitable for you.

Once you decide that a business may be of interest to you, it is a good idea to do some additional research.

ONLINE Workshop Series

Just About Everything That You Need To Know About
Part-time Home –Based Businesses

Estimates of "Vital Information" covers only the beginning years of the business while it typically operates with 0-2 employees.

As the business matures the figures shown would be substantially higher. It is assumed when calculating start-up expenses that basic office supplies and equipment (such as computer, filing cabinet, desk, miscellaneous supplies, etc are available).

Our research was based on the latest industry and government publications and personal research. This **ONLINE** workshop / eBooks series is designed to provide accurate authoritative information with regard to the subject matter covered.
