

UPDATE on BRAKE MINISTRIES

The old man who could hardly see when he came to the meeting dropped to his knees, hands raised toward heaven with tears flowing down his face. Moments before, as one of our team members prayed for healing, he began to shout: "I CAN READ THE WORDS ON THE SCREEN!!", and then as he turned and gazed upwards, "I CAN SEE THE BALCONY ABOVE"!!

God had done a miracle, opening the eyes of a man nearly blind and giving him clear vision for the first time in what must have been years.

Moments later, our driver for the week, a man named Mundo, rushed to the front for a miracle of his own. Mundo wore thick glasses and unbeknown to us, suffered from Glaucoma. When we got into the car late that evening after what had been a phenomenal time in the presence of God, Mundo was no longer wearing his glasses. "Are you healed?", I asked him. (Being that we would be his passengers in chaotic streets en route back to the hotel, I had a vested interest in inquiring 😊).

"Yes, yes" he replied excitedly. I am healed! He never put on his glasses again the remainder of this past week and drove just fine.

God moved graciously like this the entire time. We were not long in Mexico, but the results were extraordinary. Our prayer request for God's grace and anointing on the preaching was met beyond even our expectations. The 1,000+ people who filled the convention center in Coatzacoalcas had their souls saturated with God's Word and Presence. What a huge privilege we were given to once again participate in a Kingdom assignment to the nations. The coming and going takes a bit more out of us then it used to, but the glory in between makes the effort seem as nothing, and we always return with our cups overflowing and a fresh oil from the Spirit stirring us to press ahead to the next opportunity.

Onward & Upward!

Kelly & Lenora

P.S. in the photo below of Lenora, she is standing in the front row. All of the people in front of her are crowded at the altar seeking a healing touch from Jesus 💕
