

9T@5Mac watchOS 11.0.1 now available with fixes for Apple Watch battery life and more

Chance Miller Oct 3 2024 - 2:36 pm PT

Alongside iOS 18.0.1 and iPadOS 18.0.1, Apple is also rolling out a new update for Apple Watch users. watchOS 11.0.1 is now available with fixes for the Music app, battery life, and more. Head below for the full release notes.

watchOS 11.0.1 features build number 22R361. It's available now by going to the Apple Watch

app on iPhone or to the Settings app on your Apple Watch itself. The update will start when Apple Watch is charged to at least 50% and on its charger.

Apple says that watchOS 11.0.1 “includes bug fixes for your Apple Watch.” Here are the full release notes:

- Apple Watch may unexpectedly restart for some users
- Music app may unexpectedly quit when loading media
- Battery may drain more quickly than expected
- Touch screen may be temporarily unresponsive for some Apple Watch Series 9, Apple Watch Series 10, and Apple Watch Ultra 2 users
- Messages may unexpectedly quit when replying to a message with a shared Apple Watch face
