What's Up at Apple

Apple Intelligence

- These devices will support AI:

  - iMac 2019 and later
  - iMac Pro 2017 and later
  - Mac Studio 2022 and later
  - MacBook Air 2020 and later
  - Mac mini 2018 and later
  - MacBook Pro 2018 and later
  - Mac Pro 2019 and later

- The initial release will focus on working with text in existing Apple (and non-Apple) applications

- Operating system software needed for AI:

  - Sequoia (macOS)
  - iPhone - iOS 18
  - iPad - iPadOS 18
  - Initial software released this fall with later functionality to be released TBD

- Apple Continuity will provide the ability to work on the same document across Apple devices

- New, more functional Siri will be part of AI

- Just hit record in the Notes or Phone apps to capture audio recordings and transcripts

- Use a Smart Reply in Mail to quickly draft an email response

- Image Wand can transform your rough sketch into a related image in the Notes app.

- Search for photos and videos in the Photos app simply by describing what you're looking for.

- Remove distractions in your photos with the Clean Up tool in the Photos app.

- ChatGPT from OpenAI will be integrated into Siri and Writing Tools
