

The Ajax-Pickering Board of Trade (APBOT) is announcing some exciting changes in our office. Chrystine Langille has decided to pursue new opportunities. In her time serving the Board of Trade, we are grateful for the incredible energy and insight she has brought to the role. In filling the position, the APBOT Board of Directors has asked Nicole Gibson to act as Interim Executive Director. Nicole has been with the Board of Trade for approaching six years. With her tremendous depth of knowledge and breadth of experience, Nicole will be a welcomed and familiar face to our valued members. We are happy to answer any questions you may have and encourage you to contact the APBOT office at 905-686-0883. Below, please find a parting message from Chrystine, followed by a welcome message from Nicole. Please join us in wishing them both the very best.

“I recently made the decision to resign as the Executive Director of the Board of Trade. It has been an honour to work with all of you and to represent the APBOT. I’m proud of the results we’ve achieved together and the initiatives underway. I’m departing with gratitude to so many people – our members, our staff team, our Board of Directors and the other many volunteers who together continue to make the APBOT such a powerful voice for our business community. As you continue your own work and the work of the Board of Trade, I wish you much happiness, health and success.”

“I am extremely excited to take on the role of Interim Executive Director and to continue the work of the Ajax-Pickering Board of Trade. For more than half a decade, I have had the great privilege of getting to know many members and I look forward to strengthening those relationships and building new ones. To the APBOT staff and Board of Directors, thank you for your trust and support as we move through this time of change. The Board of Trade has been the voice of the business community in Ajax and Pickering for more than 50 years and we will continue to be a valuable resource for our membership.”
