Bill Positions by Topic							
Community Living & Working							
SB0010		Workers' Compensation - COVID-19 Occupational Disease Presumption	Senator Jackson	In Senate Hearing 3/8 at 1 PM FIN	Oppose	Establishing that first responders, public safety employees, and health care workers are presumed to have an occupational disease that is compensable under workers' compensation law after a positive test or diagnosis for COVID-19; and applying the Act retroactively.	It is not possible to pinpoint a causal link between exposure to and contraction from a particular person.- viral particles are so small they are able to travel, making this variant present with a high transmission rate. Worker's comp already has a process they use to determine if Covid was likely to have happened on the job.
SB0023	HB0141	Equity in Transportation Sector - Guidelines and Analyses	Senator Carter	Passed in Senate (32-15); In House First Reading HRU	Support	Requiring that equity be considered when State transportation plans, reports, and goals are developed; altering the membership of the advisory committee on State transportation goals; establishing the Commission on Transportation Equity to assist in developing policies and performance measures to ensure the State transportation system is equitable; requiring the Department of Transportation to conduct transit equity analyses and consult with certain communities before announcing or proposing service changes; etc.	BEGINNING WITH THE 2023 ATTAINMENT REPORT ON TRANSPORTATION SYSTEM PERFORMANCE, THE ADVISORY COMMITTEE ADVISING THE DEPARTMENT ON STATE TRANSPORTATION GOALS, BENCHMARKS, AND INDICATORS SHALL CONSULT WITH THE COMMISSION ON TRANSPORTATION EQUITY TO RECOMMEND MEASURABLE TRANSPORTATION INDICATORS THAT CAN BE EVALUATED FOR: 1. RACIAL AND ETHNIC DISPARITIES; AND 2. IMPACTS ON PERSONS WITH DISABILITIES
HB0141	SB0023	Equity in Transportation Sector - Guidelines and Analyses	Delegate Ruth	Passed in House (98-32); Passed in Senate (32-15); Returned Passed	Support	See above	See above
SB0028	HB0080	Home- and Community-Based Services Waiver - Participation and Applications	Senator Kelley et al.	Passed in Senate with Amendments (45-0); In House Hearing 3/30 at 1: 30 PM HGO	Support	Altering the required contents of the home- and community-based services waiver submitted by the Maryland Department of Health to the Centers for Medicare and Medicaid Services; and requiring the Department to send an application to a certain number of individuals each month, if the Department maintains a waiting list or registry for the waiver.	changes Community Options Waiver Caps, and requires the Department to contact a certain number of people on the wait list to determine eligibility for needed services.
HB0080	SB0028	Home- and Community-Based Services Waiver - Participation and Applications	Delegate Cullison	In House Hearing 2/9 at 1: 30 PM HGO	Support	See above	See above
SB0066		Labor and Employment - Hiring - Education Requirements (Give Me A Chance - Job Opportunities Act of 2022)	Senator Patterson	In Senate Unfavorable Report FIN	Support or LOI	Prohibiting an employer from developing or implementing an application or hiring process that uses an applicant's or employee's lack of achievement of a certain level of education in employment decisions unless a minimum educational qualification is required to obtain an occupational license; authorizing an employer to inquire as to an applicant's academic achievement after an initial offer of employment, but may not rescind the offer based on the applicant's response; providing certain penalties under certain circumstances; etc	If passed, employers may not use the lack of a high school diploma to disqualify an otherwise qualified candidate for employment.
SB0093		Tax Credits - Employment of Individuals With Disabilities	Senator Kramer	Passed in Senate (45-0); Passed in House (129-0); Returned Passed	Support with Coalition Testimony	Altering the amount of a credit against certain State taxes for certain wages paid and certain child care or transportation expenses incurred by certain business entities with respect to qualified employees with disabilities.	The bill would increase the amount of tax credits employers can claim for providing assistance to employees with disabilities and providing childcare assistance.
HB0008	SB0275	Labor and Employment – Family and Medical Leave Insurance Program – Establishment (Time to Care Act of 2022)	Delegate Valderrama	Passed in House (31-15); Passed in Senate with Amendments (90-43); Passed Enrolled	Support with Amendments	Establishing the Family and Medical Leave Insurance Program in the Maryland Department of Labor to provide certain benefits to individuals who take leave from employment for certain purposes; establishing the Family and Medical Leave Insurance Fund as a special, nonlapsing fund; requiring, beginning January 1, 2023, certain employees, employers, and self-employed individuals to contribute to the Fund in a certain manner; etc.	While paid family leave is a concept supported by The Arc, the bill language would create a host of new requirements and hardships for providers and employees as it requires mandatory participation, financial and other, and does not contain any definition changes The Arc has asked for in the past.
SB0275	HB0008	Labor and Employment – Family and Medical Leave Insurance Program – Establishment (Time to Care Act of 2022)	Senators Hayes & Benson	Passed in Senate with amendments (31-15); Passed in House with Amendments (90-43); Passed Enrolled	Support with Amendments	See above	See above

Bill contains provisions to ensure that businesses keep a limited supply of straws on hand for people who need them as an accommodation. We would like to see the bill strengthened however with training/posting requirements in the law to ensure food service places know they must keep a stock of straws on hand for accommodations.
HB0173		State Board of Social Work Examiners - Temporary License to Practice Social Work	Delegate Bagnall	In House Hearing 2/3 at 2: 30 PM HGO	LOI or Support with Amendment	Authorizing the State Board of Social Work Examiners to issue a temporary license to practice social work if a required examination is unavailable to the applicant for a period of at least 7 days and the applicant has met the appropriate education and experience requirements; and providing that a temporary license authorizes the holder to practice social work only under the supervision of a Board-approved supervisor and is valid until 90 days after the examination becomes readily available to the applicant.	The social work graduates shouldl not be able to provide an evaluation for guardianship cases.
SB0235		Income Tax - Personal Exemption - Disabled Individuals	Senator Jackson	In Senate Hearing 1/25 at 2:30 PM B&T	Support	Authorizing individuals who have a permanent physical disability, including blindness to deduct \$1,000 as a personal exemption under the Maryland income tax; and applying the Act to taxable years beginning after December 31, 2021.	People with physical disabilities could benefit in having a \$1000 personal exemption to taxes to be able to offset expenses such as transportation and accessibility devices/equipment that can be costly but which aid them to work and live with independence

HB0529	SB0559	Estates and Trusts - Supported Decision Making	Delegate Pena-Melnyk et al.	In House Hearing 3/9 at 1 PM JUD	Support	Authorizing the use of supported decision making to assist an adult through the provision of certain support for the adult in making, communicating, or effectuating certain decisions and preventing the need for the appointment of certain substitute decision makers for the adult; authorizing an adult to enter into a supported decision-making agreement with one or more supporters under certain circumstances; providing immunity from civil or criminal liability under certain circumstances; etc.	The Supported Decision Making coalition is made up of 27 individuals and organizations all working to protect and advance the rights of people with IDD. This bill would create a Supported Decision Making option in current law- authorizing people to designate supporters to help them gather and evaluate information they need to make their own decisions. Several other states and jurisdictions have already adopted SDM into their statutes.
SB0559	HB0529	Estates and Trusts - Supported Decision Making	Senator Waldstreicher et al.	Passed in Senate (44-0); In House Hearing 3/23 at 1 PM JUD	Support	See above	
SB0636	HB1403	Maryland Department of Health - Waiver Programs - Waitlist Reduction (End the Wait Act)	Senators Zucker, Guzzone & Griffith et al.	Passed in Senate (46-0); Passed in House (126-1); Returned Passed	Support	Requiring the Maryland Department of Health to develop a plan to reduce the waitlist for certain waiver programs by 50% beginning in fiscal year 2024.	Clarifying amendments have been drafted to capture increased access for those on the Autism Waiver Registry (technically not a wait list but included in this bill) and provisions requiring the department to examine what existing providers need for capacity to support additional people coming off the waiting list. House bill is expected with Delegate Pena-Melnyk as sponsor
HB1403	SB0636	Maryland Department of Health - Waiver Programs - Waitlist Reduction (End the Wait Act)	Delegate Pena-Melnyk et al.	Passed in House (120-0); In Senate First Reading SRU	Support	See above	See above
SB0625	HB0726	Transportation of Persons With Disabilities - Transportation Network Companies - Employee Requirements	Senator Hettelman	Passed in Senate (46-0); In House Hearing 3/24 at 1 PM E&T	Support	Exempting certain employees of transportation network companies that provide transit service to persons with disabilities under contract with the Maryland Transit Administration from certain requirements relating to a certain criminal history records check and completion of a certain course; and requiring transportation network companies that provide transit service to persons with disabilities under contract with the Administration to run certain annual background checks on certain employees.	Would not require C.JIS, but would require a regular background check for alternative driving contractors with the Department like UBER or Lyft. Since Transportation has been so woefully insufficient, due to historic issues and the recent driver shortage, this would provide another option, accounting for rider safety, for people who need paratransit or other subsidized transportation to get to medical appts. etc.
HB0726	SB0625	Transportation of Persons With Disabilities - Transportation Network Companies - Employee Requirements	Delegate Ebersole et al.	In House Unfavorable Report E&T; Withdrawn	Support	See above	
HB0878		Howard County - Department of Housing and Community Development - Housing Opportunities Trust Fund Ho. Co. 05-22	Howard County Delegation	Passed in House (131-1); In Senate Hearing 3/31 at 1 PM EHEA	Support	Establishing the Housing Opportunities Trust Fund as a nonreverting special fund to be used to promote equitable access to affordable housing for households of limited income in Howard County; and requiring the Department of Housing and Community Development for Howard County to report on the activity of the Fund during the prior fiscal year on or before December 1 each year.	People with IDD need access to affordable, accessible housing and currently the stock is low, as are support mechanisms for housing assistance funds. The trust could help with that.
HB0698	SB0721	Labor and Employment - State Minimum Wage Rate - Increase	Delegate Turner et al.	In House Hearing 2/22 at 1 PM EMC	Support with Amendments	Increasing the State minimum wage rates in effect for certain periods of time; and repealing the authority of the Board of Public Works to temporarily suspend an increase to the State minimum wage rate.	Increases the min wage to \$15 per hour by July 1, 2022 and does not contain any funding provision for Medicaid providers.
SB0721	HB0698	Labor and Employment - State Minimum Wage Rate - Increase	Senators Waldstreicher & McCray	In Senate Hearing 3/10 at 1 PM FIN	Support with Amendments	See above	See above
HB1121		Driver's Licenses, Identification Cards, and Registration Plates – Notation for Autism Spectrum	Delegate R. Jones et al	Passed in House (130-0); In Senate First Reading SRU	Support as Amended (see notes)	Requiring the Motor Vehicle Administration to ensure that the driver's license, identification card, or registration plate of an applicant who indicates on a certain application that the applicant is on the autism spectrum includes a notation specifying that the applicant is on the autism spectrum; and requiring an application for a driver's license, an identification card, or a vehicle registration to allow an applicant to indicate that the applicant is on the autism spectrum.	Bill has been amended to strike availability of ID/license notation and instead create voluntary blue envelopes, require police training and posting of opportunity to obtain blue envelopes at MVA.
HB0640		Labor and Employment - Healthy Working Families Act - Application	Delegate Carey	In House Hearing Canceled EMC	Support with Amendments	Altering the exemption from the application of the Healthy Working Families Act for employees employed in the construction industry; and applying the Act prospectively.

Amendments include adding the Maryland Department of Disabilities and including additional tasks for the Commission to evaluate WTC.
SB0680	HB1332	State and Local Parks – Playground Accessibility – Communication Boards	Senator Gallion	In Senate Hearing 3/1 at 1 PM EHEA	Support with Amendments	Requiring the Department of Natural Resources and local governing bodies to construct a communication board in each public playground by October 1, 2027; defining "communication board" as a device that displays photos, symbols, or illustrations to enable individuals with limited language skills to express themselves and communicate; and providing for the funding of communication board construction.	It would be wonderful to have communication boards statewide. They should use recognizable/universal symbols for communication.
HB1332	SB0680	State and Local Parks – Playground Accessibility – Communication Boards	Delegate Kipke	In House Hearing 3/9 at 1 PM E&T	Support with Amendments	See above	See above

Bill	Crossfiled Bill	Title	Sponsor	Status	Position	Description	Notes
HB0023		School Discipline - Data Collection and School Resource Officers	Delegate Washington	Passed in House (97-33); In Senate Hearing 4/5 at 1 PM EHEA	Support	Requiring the State Department of Education to disaggregate certain discipline-related data in an electronic spreadsheet format for the Department's website, make the data available to the public, and report certain discipline-related information each year; requiring the Department to lower a risk ratio used to identify a school's disproportional disciplinary practices and report disproportionality data for high-suspending schools; and prohibiting a school resource officer from unilaterally enforcing student discipline.	Requires the MSDE to make public all discipline-related data as a data-download disaggregated information by grade level, race, ethnicity, and disability status including a 504 Plan or IEP on or before August 1, 2023 and annually thereafter. MSDE should note disproportionality and lower the risk ratio to under or at the Federal IDEA compliance standards. The bill also notes that a School Resource Officer (SRO) cannot unilaterally enforce discipline-related school policies, rules, regulations, or procedures. Why this is important: Data shows disproportionate application of discipline on black and brown students and students with disabilities but the data is not helpful for holding school systems accountable to change as it is rolled up onto lump totals. We need the data disaggregated so we can identify and address the problems where they are. The bill also addresses a concern with the overreach of the SROs becoming involved in incidents, potentially leading to escalations, and police involvement. These functions should be handled by supportive staff in the school, trained in trauma informed care, and in the communication, behavioral, and sensory needs of the student.
HB0056		Commission on Student Behavioral Health and Mental Health Treatment	Delegate Bagnall	In House Hearing 1/20 at 1 PM W&M	Support with Friendly Amendment	Establishing the Commission on Student Behavioral Health and Mental Health Treatment; and requiring, on or before July 1, 2023 and December 1, 2023, the Commission to report its findings and recommendations to the Governor, the State Board of Education, and the General Assembly.	To include someone who is viewing policy through the lens of IDD
HB0089	SB0480	Child Care Stabilization Grant Program and Child Care Expansion Grant Program - Established	Delegate Queen	Passed in House (137-0); In Senate Hearing 3/29 at 1 PM B&T	Support with Amendments	Establishing the Child Care Stabilization Grant Program and the Child Care Expansion Grant Program in the State Department of Education; and establishing that the purpose of the Program is to provide financial support to licensed child care providers in the State that are in danger of closing in the next 12 months due to financial hardship.	Add that fund can be used for accommodations needed to support children with disabilities.
SB0480	HB0089	Child Care Stabilization Grant Program and Child Care Expansion Grant Program - Established	Senators Hester, King & West	In Senate Hearing 2/16 at 1 PM B&T	Support with Amendments	See above	See above
HB0136	SB0299	Education - Public and Nonpublic Schools - Seizure Action Plans (Brynleigh's Act)	Delegates Kerr & Johnson	Passed In House with Amendments (135-0); Passed in Senate with Amendments (46-0);	Support	Requiring a county board of education and authorizing a nonpublic school, beginning in the 2023-2024 school year, to require at least two school personnel at the school to be trained in certain seizure recognition and response methods; requiring a public school, beginning in the 2023-2024 school year, to provide training every 2 years to school personnel with direct contact and supervision of students on certain seizure recognition and response methods; providing immunity from civil liability under certain circumstances; etc.	Background: Requires schools to develop Seizure Action Plans for students with Seizure disorders and also requires schools to identify and train at least two school personnel on the identification, response, and treatment of seizures. Why this is needed: There are approximately 7,900 children living with epilepsy in Maryland. This amounts to a ratio of roughly 913 students for every 1 school nurse. Education, information, and training on seizure recognition would ensure school personnel are prepared and can recognize and respond appropriately and efficiently to a student experiencing a seizure, thus creating a safer environment for every student in Maryland's public schools. Parents, as critical partners in education, would be actively involved in collaboration with school personnel to create a seizure action plan for their student with a seizure condition. 12 states have already passed seizure safe legislation as of October 2021 including our neighbor states Virginia and New Jersey.
SB0299	HB0136	Education - Public and Nonpublic Schools - Seizure Action Plans (Brynleigh's Act)	Senators Young, Feldman & Washington	Passed in Senate (44-0); Passed In House with Amendments (129-0);	Support	See above	See above
HB0226	SB0577	Public Schools - Self-Contained Special Education Classroom Video Recording Pilot Program	Delegates Guyton & Luedtke	Passed in House amended to be a pilot (128-4); In Senate First Reading EHEA	Support	Requiring county boards of education to install a video recording device in 10 self-contained special education classrooms in the state, report data on the costs of installation and maintenance, and report data on the effectiveness of the devices both as a deterrent and as a tool to investigate abuse and neglect claims.	This article provides a lot of good information about why cameras in self contained special education classrooms are needed. https://www.fredericknewspost.com/news/continuing-coverage/seclusion-and-restraint-in-fcps/state-bill-would-require-cameras-in-special-education-classrooms/article_6de7d573-4cbd-5207-8114-465cc611ab26.html
SB0577	HB0226	Public Schools – Self–Contained Special Education Classroom – Use of Video Recording Devices	Senator Klausmeier et al.	In Senate Hearing 2/16 at 1 PM EHEA	Support	Requiring each county board of education, beginning in the 2022-2023 school year, to install a video recording device in each self-contained special education classroom; providing for the installation, operation, notification, and use of a video recording device and the viewing, use, and confidentiality of system recordings; requiring the school administration to notify the appropriate law enforcement agency on receipt of a complaint of alleged neglect or abuse of a student under certain circumstances; etc.	See above
HB0352	SB0888	Education - American Studies and Social Equity Standards Advisory Board - Academic Standards and Model Policy	Delegate Qi et al.	In House Hearing Canceled W&M	Support	Establishing the American Studies and Social Equity Standards Advisory Board; requiring that at least 80% of the Board's members reflect the geographic diversity of the State and have a background in advocacy for certain ethnic and social groups; requiring the Advisory Board to review academic standards for American studies and develop a model policy on ethnic and social equity in public schools; requiring each county board of education to implement a curriculum for American studies before the 2025-2026 school year; etc.	This bill would establish a board to advise curriculum on American Studies to ensure the histories of influential contributors to American History are equitably included. This would include the contributions of people with disabilities throughout history who have shaped our history and nation today.
SB0888	HB0352	Education - American Studies and Social Equity Standards Advisory Board - Academic Standards and Model Policy	Senator Lee	In Senate Hearing 3/8 at 1 PM EHEA	Support	See above	See above
HB0737		Alternative Education Options - Right to Learn and Broadening Options and Opportunities for Students Today Programs (Right to Learn Act of 2022)	Delegate Ghrist et al.	In House Hearing 2/24 at 1 PM W&M	Oppose with EAC	Requiring, on or before January 1 each year, and based on certain star ratings, each county board of education to provide the parents or legal guardians of students who attend a failing school notice that the school is failing and a list of alternative school options; establishing the Right to Learn Program to provide students who attend a failing school and choose to pursue an alternative education option with certain scholarships; establishing the Broadening Options and Opportunities for Students Today (BOOST) Program; etc.	Concern with diversion of funds away from public school and BOOST program overall. Private schools that do not receive Federal Ed Funding do not have to comply with IDEA and often students give up their rights to accommodations needed for proper education access. Compliance with IDEA should be a requirement for any organization who receives BOOST funding.
SB0119	HB0084	Education – Crimes on School Grounds – Application	Senator Washington	Passed in Senate (30-16); In House Hearing 3/24 at 1 PM W&M	Support with CRSD	Specifying that provisions of law prohibiting and penalizing disruptive and threatening behavior on the grounds of, in the classes of, or in the home of an employee of an institution of elementary, secondary, or higher education do not apply to students who commit offenses at the institution they attend, students on exclusionary discipline who commit offenses at the institution they attend, or students who commit offenses while participating in or attending a sporting event or other extracurricular program.	Clarifies the intention of the original law and prohibits overapplication
HB0084	SB0119	Education – Crimes on School Grounds – Application	Delegate Ruth et al.	Passed in House (94-42); In Senate First Reading EHEA	Support with CRSD	See above	See above

SB0583		Maryland Center for School Safety – Public Schools – Reporting of Classroom Disruptions	Senator Bailey	In Senate Hearing 3/8 at 1 PM EHEA	Oppose	Requiring the Maryland Center for School Safety to establish a website for anonymous reports of public school classroom disruptions; requiring the Center to establish an office that reviews and refers classroom disruption reports to the appropriate county superintendent of schools and the county board of education; requiring the county superintendent and the county board jointly to respond within 45 days after receiving the report, etc.	No definition of “Classroom Disruption” and not sure how this would not be a waste of funding that could be used for supportive services in school.
SB0617	HB0547	Local School Systems - Equivalent Access Standards - Digital Tools (Nonvisual Access Accountability Act for K-12 Education)	Senator Zucker et al.	Passed in Senate (44-0); In House Hearing 3/24 at 1 PM W&M	Support	Requiring a local school system to provide equivalent access to digital tools for students with disabilities, including the development, purchase, and provision of certain digital tools; requiring a local school system to establish a process to evaluate a digital tool under consideration for purchase for nonvisual access by a certain employee of the school system; requiring a vendor who provided a digital tool that fails to meet equivalent access standards to modify the digital tool at the vendor's expense; etc.	Would strengthen equitable access to technology for students with visual impairment and blindness.
HB0547	SB0617	Local School Systems - Equivalent Access Standards - Digital Tools (Nonvisual Access Accountability Act for K-12 Education)	Delegate Guyton et al.	In House Hearing 2/24 at 1 PM W&M	Support	See above	See above
SB0705	HB1255	Education – Physical Restraint and Seclusion – Limitations, Reporting, and Training	Senators Zucker, Hester & Hough	Passed in Senate (46-1); Passed in House with Amendments (130-0);	Support	Prohibiting a public agency from using seclusion as a behavioral health intervention for a student; prohibiting a public agency from using physical restraint and a nonpublic school from using physical restraint or seclusion as a behavioral health intervention for a student, except under certain circumstances; requiring the State Department of Education to develop an accountability system to measure compliance with regulations adopted on the use of physical restraint and seclusion; etc.	Support with Coalition Partners. There is also Federal legislation under consideration right now: The Keeping All Students Safe Act which would eliminate seclusion and curtail restraint in schools. Seclusion and Restraint data for Maryland Schools show the practice is disproportionately used on black and brown students and students with disabilities.
HB1255	SB0705	Education – Physical Restraint and Seclusion – Limitations, Reporting, and Training	Delegate Ebersole et al.	Passed in House (133-0); Passed in Senate with Amendments (46-1); Passed Enrolled	Support	See above	See above.
SB0666	HB0850	Schools, Prekindergarten Programs, and County Boards of Education – Discrimination	Senators McCray & Waldstreicher	In Senate Hearing 3/10 at 1 PM JPR	Support	Prohibiting county boards of education and certain schools and prekindergarten programs from taking certain discriminatory actions because of a person's race, ethnicity, color, religion, sex, age, national origin, marital status, sexual orientation, gender identity, or disability; requiring each county board and certain schools and prekindergarten programs to print a certain statement in their student handbook; providing for the filing of a complaint under the Act with the State Superintendent of Schools; etc.	Self-explanatory
HB0850	SB0666	Schools, Prekindergarten Programs, and County Boards of Education – Discrimination	Delegates Wilkins and Charles	Passed in House (94-36); In Senate First Reading JPR	Support	See above	see above
HB0728	SB0371	Carroll County – Prospective Employees and Volunteers – Criminal History Records Check	Carroll County Delegation	In House Hearing 3/11 at 1 PM E&T	Letter of Information	Repealing provisions relating to obtaining a criminal history records check in Carroll County; and authorizing the Department of Human Resources in Carroll County to request, along with the submission of two complete sets of an employee's or volunteers fingerprints and certain fees, from the Criminal Justice Information System Central Repository of the Department of Public Safety and Correctional Services a State and national criminal history records check for a prospective county employee or volunteer.	Would present the unintended consequences of keeping volunteer parents, guest speakers, and assemblies out of the schools, including the <i>Together We're Better</i> inclusive education campaign. We understand the importance of long-term volunteers having a deeper background, but believe this bill may overreach.
SB0371	HB0728	Carroll County – Prospective Employees and Volunteers – Criminal History Records Check	Carroll County Senators	Passed in Senate with Amendments (45-0); In House First Reading E&T	Letter of Information	See above	See above
SB0806	HB1100	Child Care Providers and Employees - Bonuses	Senator King	In Senate Hearing 3/9 at 1 PM B&T	Support	Establishing funding for, the award of, and the distribution of bonuses for child care providers and employees; and requiring, in fiscal year 2024, the Governor to include in the annual budget an appropriation of \$16,000,000 to the State Department of Education to carry out the Act.	Would help The Arc providers who operate childcare centers that have been impacted by the pandemic.

HB0214		Juveniles - Reportable Offenses	Delegate Parrott	In House Hearing 2/2 at 1 PM JUD	Monitoring for Impact on People with IDD	Requiring the Department of Juvenile Services to notify a certain local superintendent of schools or school principal of a school in which a student is enrolled or has transferred of a student's arrest for a reportable offense or one that is related to a student's membership in a criminal organization; and requiring the Department to provide certain educational programming information to a certain student.	
HB0244	SB0313	Civil Actions - Damages - Use of Race, Ethnicity, and Gender Data	Delegates Moon & J. Lewis et al.	Passed In House (110-20); In Senate First Reading JPR	Monitoring for Possible Support with Amendments	Prohibiting a calculation of damages for loss of earnings resulting from personal injury or wrongful death from being reduced based on race, ethnicity, or gender; and applying the Act prospectively. SB0357	HB0589	Adult Protective Services - Vulnerable Adults Registry - Investigations and Records of Abuse and Neglect and Workgroup Study	Senators Benson & Patterson et al.	Passed in Senate (44-0); In House Favorable with Amendments Report JUD	Monitoring	Establishing certain requirements and procedures relating to the reporting, disclosure, investigation, and appeal of civil allegations and findings of abuse and neglect of vulnerable adults; authorizing the Social Services Administration to establish and maintain a centralized confidential database for abused and neglected vulnerable adults; establishing a Workgroup to Study Best Practices for a Vulnerable Adult Registry in Maryland; etc.	The way in which the bill is worded is confusing and problematic. We would be very interested in the creation of an abuse registry in Maryland, but the infrastructure is that currently in place to support an effective and fair process. This bill does not create that process for people in DDA services.
