Budget								
HB0588	SB0491	Budget Bill (Fiscal Year 2022)	Speaker of the House by request of the administration	Senate President by request of the administration	Passed in House with Amendments (128-8); Passed in Senate (47-0); Passed Enrolled	In House First Reading B&T	Support	The bill contains full appropriation for DDA Community Services 4%. The draft budget also includes appropriations for the Waiting List, LISS, Transitioning Youth (usual appropriation), but no new Autism Waiver slots.
HB0589	SB0493	Budget Reconciliation and Financing Act of 2021	Speaker of the House by request of the administration	Senate President by request of the administration	Passed in House with Amendments (125-12); Passed In Senate with Amendments (47-0); Passed Enrolled	In House Hearing 3/3 at 1 PM B&T	Monitoring	None of our priority areas are included in the BRFA this year
Current Positions on Bills by Topic								
Community Living & Working								
HB0612	SB0496	Recovery for the Economy, Livelihoods, Industries, Entrepreneurs, and Families (RELIEF) Act	Speaker of the House by request of the administration	Senate President by request of the administration	Senate President by request of the administration	Passed in Senate with Amendments (47-0); Passed in House with Amendments (45-0); Passed Enrolled; Approved by Governor	Support	Enrolled bill includes funding for special education, tutoring and summer school, and 5 million dollars for providers of community supports to assist with funding losses during covid, recovery, and transformation/reopening needs
HB0056	SB0473	Labor and Employment - Leave With Pay - Bereavement Leave	Delegate Boyce	Senator Washington	Passed In House (95-37); Passed In Senate (47-0); Returned Passed	Passed in Senate (45-0); Passed In House (95-37);	Letter of Information	The bill allows leave earned to be used for bereavement purposes (previously for taking care of sick)
HB0255		Department of Aging - Grants for Aging-in-Place Programs - Funding	Delegates Hill, Ebersole, Feldmark, Korman, and Lierman		In House Unfavorable Report APP; Withdrawn		Support	Bill advanced last session, but no funding was put in the budget to support the grants.
HB0318	SB0441	Developmental Disabilities Administration - Self-Directed Services (Self - Direction Act)	Delegate Young	Senator Lee	In House Hearing 1/26 at 1:30 PM HGO	In Senate Hearing 2/16 at 1 PM FIN	Support with DD Coalition Testimony	Bill preserves self directed services components that are important to many people.
HB0375	SB0211	Labor and Employment - Family and Medical Leave Insurance Program - Establishment (Time to Care Act of 2021)	Delegate Valderrama	Senator Hayes	In House Hearing 2/16 at 1:30 PM EMC	In Senate Hearing 1/28 at 1 PM FIN	Support with Amendment. Funding is a concern	The Arc supports the intention of this bill and the establishment of an insurance program that would be created to allow for paid family leave. We have concerns about the expense to DDA providers and people who self-direct, as well as some of the definitions included in the bill. Without a provision for DD Provider funding to support this new benefit, the program would amount to an unfunded mandate for both providers and staff.

House	Senate		House Bill	Senate Bill	House Bill	Senate Bill		
	SB0064	Unemployment Insurance - Earned Rating Record - Waiver of Benefit Charges Due to COVID-19		Senator Salling		In Senate Unfavorable Report FIN; Withdrawn	Support	<u>Other nonprofits and all for-profit employers' contributions are based on two factors -- their own 'experience rating' and the state tax table for that year. The Governor's action in December will moderate contribution/tax increases based on employers' own experience ratings, that would otherwise begin in April of 2021. But regardless of employers' experience, the fact that the Trust Fund itself has been substantially depleted will require - by law - that a much higher 'tax table' apply for 2021 in order to begin replenishing the Fund. This higher table will significantly increase the costs for all contributing employers, regardless of their experience ratings - even those with no layoffs. Read more here.</u>
HB0511		Income Tax - Personal Exemption - Disabled Individuals	Delegate Valentino-Smith		In House Hearing 1/28 at 1:30 PM W&M		Support	Supports extension of tax exemption of additional 1K for people with Physical Disabilities as a natural extension of Blindness (considered a physical disability).
HB0581	SB0486	Labor and Employment - Employment Standards During an Emergency (Maryland Essential Workers' Protection Act)	Delegate D.E. Davis	Senator Augustine et al.	Passed in House with Amendments (92-39);	In Senate Hearing 2/11 at 1 PM FIN	Oppose	Direct Support Professionals are essential and should be provided with appropriate PPE, communication, safety considerations for their working environments, and other rights. We are concerned with the overly broad nature of the bill, including definitions for who is included in the list of essential workers, what constitutes and emergency, a retroactive application of the provisions of the bill to the beginning of the state of emergency, the absence of any funding mechanism for the pay and benefits required through this bill, and other provisions that may result in increased risk to people with IDD. Individuals who self-direct would be considered essential employers under the current definition as well.
	SB0307	Labor and Employment - Direct Care Workforce Innovation Program		Senator Guzzone		Passed In Senate (47-0); In House Hearing 3/23 at 1:30 PM EMC	Support	It appears this bill WOULD include DD Provider Staff as Direct Support Professionals. Support with coalition testimony
HB0718		State Coordinator for Autism Strategy and Advisory Stakeholder Group on Autism-Related Needs - Mandated Appropriation	Delegate Guyton		Passed In House with Amendments (130-0); In Senate Favorable Report FIN		Letter of information with DD Coalition	The law to create this position is currently in place (passed last year) but there has been no appropriation to support this position. This bill requires an annual appropriation. Our letter of information supports the need for a funded position that can assist individuals with disabilities and their families to access needed services and supports, and locate needed resources/coordinate services, and generally improve options and access for people with disabilities.
HB0786		Department of Human Services, Maryland Department of Health, and Department of Education - Easing Access to Family Support Programs	Delegate Kaiser		In House Hearing 2/10 at 1:30 PM APP		Support	Parents currently have to navigate a maze of applications and eligibility and this initiative would endeavor to create a one stop shop for families to obtain needed benefits and services.
HB0923	SB0728	Labor and Employment - Worker Safety and Health - Injury and Illness Prevention Program	Delegate Pena-Melnyk	Senator Feldman	In House Hearing 3/5 at 1:30 PM EMC	In Senate Hearing 3/17 at 1 PM FIN	Letter of Information / Evaluating for Opposition	We do not feel this legislation is needed for our industry since we are already regulated to comply with health and safety standards by regulation and oversight of the Office of Health Care Quality.

	SB0388	Vehicle Registration - Disability Plates - Parking Meter Fees		Senator Cassilly		In Senate Hearing 2/10 at 1 PM JPR	Support	Would make it so that people with disability plates would not have to pay parking meter fees regardless of whether spaces are accessible
HB0906	SB0814	Unemployment Insurance - Earned Rating Record - Waiver of Benefit Charges Due to COVID-19	Delegate Carey	Senator Klausmeier	In House Unfavorable Report EMC; Withdrawn	In Senate Unfavorable Report FIN; Withdrawn	Support	Many of The Arc providers self-insure for their unemployment insurance, and some had to downsize during the pandemic (transportation and day program components primarily) due to lack of work for those employees. The experience rating for them is going to be higher, plus the experience rating for the state (which is aggregated and spread) is likely to increase up to 5X what it is now without this legislation. The legislation synopsis: Requiring, except under certain circumstances, the Secretary of Labor to waive the charges of unemployment insurance benefits against the earned rating record of an employing unit for claims filed during a certain period of time that the Secretary determines to be related to COVID-19; authorizing the Secretary to charge certain unemployment insurance benefits against the earned rating record of an employing unit due to certain conduct related to separation notices; and terminating the Act at the end of June 30, 2025.
	SB0610	Lodging Establishments - Accessible Rooms for Individuals With Disabilities - Deadlines		Senator Cassilly		Passed in Senate (46-0) ; In House Recommitted to EMC	Oppose	The sponsor is asking to move the timeline for law compliance back by one year for lodging establishments to have 25% of its ADA rooms contain a bed of accessible height and with space underneath for the legs of a hooyer. Given that the law passed last year already provided a fair runway for changes, we oppose an extension to that timeline change.
	SB0812	Workers' Compensation - Occupational Disease Presumptions - COVID-19		Senator Klausmeier		In Senate Hearing 3/9 at 1 PM FIN	Oppose	This bill is written similarly to HB1199/SB813. See comments for opposition below.
HB1105		Unemployment Insurance - Earned Rating Record - Charging of Benefits	Delegate Wivell		In House Hearing 1/23 at 1:30 PM EMC		Support	Prohibiting the Secretary of Labor from charging unemployment insurance benefits against the earned rating record of an employing unit if, through no fault of the employing unit, the claimant is unemployed due to an official order for the employing unit to shut down that is issued by the Governor, the chief executive officer of a county, the governing body of a county or municipal corporation, or a unit or instrumentality of the State or a political subdivision.

HB1199	SB0813	Workers' Compensation - Occupational Disease Presumptions - COVID-19	Delegate Valdderrama	Senator Klausmeier	In House Hearing 3/2 at 1:30 PM EMC	In Senate Hearing 3/9 at 1 PM FIN	Oppose	Providing that certain covered employees who are suffering from the effects of severe acute respiratory syndrome coronavirus are presumed, under certain circumstances, to have an occupational disease the was suffered in the line of duty or course of employment and is compensable in a certain manner. Includes those working in "related institutions" under Health General Title 19 (3) which includes settings such as individual home supports and services, and small congregate settings under the Developmental Disabilities Administration. In small congregate group homes, Direct Support Professionals may work alone or with a small number of co-worker caregivers to provide care to people with intellectual and developmental disabilities. If a co-worker were to test positive for the virus, and then another caregiver were to test positive within a certain timeframe, it may be reasonable to conclude the co-worker contracted the virus through occupational exposure, and it may be appropriate for that employee to be covered under worker's compensation benefits. However, there are many other circumstances where it would not be reasonable to arrive at the conclusion that an employee is presumed to have contracted COVID as the result of occupational exposure. In some of the most recent cases, a caregiver, who has contracted coronavirus, has brought the virus into the congregate setting, and exposed people with IDD to the virus. Besides their caregiving staff, many of the individuals in the congregate settings have been without visitors during the pandemic and isolating, for health reasons. We must consider that the virus has a high rate of contagion and there are people who have likely contracted the illness from visits with family and friends, patronage at restaurants or bars, and even at the grocery store. These same employees may have also worked in a small congregate setting (group home), with or without other staff within the same 14-day period of these other visits and experiences. It would be impossible for anyone to determine the source of illness under this VERY common scenario, much less make a causal link to their occupation.
HB1258		Health Enterprise Zones - Established (Restoring the Promise Act of 2021)	Delegate Kipke		In House Unfavorable Report HGO; Withdrawn		Letter of Information from DD Coalition	The sponsor is well intentioned in his efforts to conure appropriate funding for waiting list services. The consideration we hope to detail for further discussion is the condition of the provider community. With the current strain, and rates/policies/procedures not all completed and promulgated combined with the strain created by the pandemic/workforce crisis, we believe stabilization of the system needs to occur to build capacity to support people from the waiting list.
	SB0756	Workers' Compensation - Occupational Disease Presumptions - COVID-19		Senator Carter		In Senate Hearing 3/9 at 1 PM FIN	Oppose	This bill is written similarly to HB1199/SB813. See comments for opposition below.

HB1326	SB0727	Maryland Healthy Working Families Act - Revisions and Public Health Emergency Leave	Delegate Dumais	Senator Feldman	In House Hearing 3/2 at 1:30 PM EMC	In Senate Hearing 3/17 at 1 PM FIN	Letter of Information / Evaluation for Opposition	Although having paid leave is important during this time due to COVID, this bill would provide additional paid leave in some cases to what employees already accrue AND require leave for intermittent and PRN workers; both of which would be hard to track and would be required without additional DDA funding. Medicaid providers cannot increase their rates to pay for any new mandated benefits and bills such as this which do not include a mandatory appropriation for DD providers are incomplete/we oppose.
Education & Childcare								
HB0059	SB0147	Task Force on Higher Education Students With Chronic Health Conditions	Delegate Pena-Melnyk	Senator Feldmark	In House Unfavorable Report APP; Withdrawn	In Senate Unfavorable Report EHEA; Withdrawn	Support with Sponsor Amendment	The sponsor's vision is a Maryland where all students striving for a higher education degree suffering from chronic conditions have the support they need to be successful. This bill will establish a task force to recommend best practices and legislation to best protect this population of students. In the bill as amended, a chronic health condition will be re-defined as a physical, DEVELOPMENTAL, behavioral, or emotional condition.
HB0097	SB0066	Department of Housing and Community Development - Office of Digital Inclusion - Established (Digital Connectivity Act of 2021)	Delegate Lierman et al.	Senator Elfreth et al.	Passed In House with Amendments (114-20) ; In Senate Referred to EHEA and B&T	Passed In Senate with Amendments (47-0) ; In House Favorable with Amendments Report EMC	Support	There has been a great inability for children to access virtual education due to gaps in service and income. This needs to be addressed for equity in access. This bill would establish an Office of Digital Inclusion in the Department of Housing and Community Development to ensure that every resident of the State is supported by high-quality broadband Internet service at an affordable price and has the tools necessary to use and take advantage of the Internet.
HB0155	SB0098	County Boards and Public and Nonpublic Prekindergarten Programs and Schools - Discrimination - Prohibition	Delegate Wilkins	Senator McCray	Passed In House with Amendments (93-44) ; In Senate First Reading JPR	In Senate Hearing 1/28 at 11 AM JPR	Support with Education Advocacy Coalition Testimony	Would create protections against discrimination of children with disabilities in policies related to admissions and educational services.
HB0171		State Department of Education - School Discipline - Data Collection	Delegate Washington		Passed In House (130-6) ; In Senate Hearing 3/24 at 1 PM EHEA		Support	Requires desegregated data on discipline separated by race, grade level, ethnicity, special services (including special education) and disciplinary practices employed.
HB0143	SB0218	Maryland Child Tax Credit	Delegate Palakovich Carr	Senator King	In House Hearing 1/14 at 1:30 PM W&M	Passed In Senate with Amendments (32-15) ; Passed in House (91-44) ; Returned Passed ;	Support	This would allow certain taxpayers to claim a credit against the state income tax for certain dependent children under certain circumstances; defining a qualified dependent as a child that is under the age of 6 years OR is under the age of 17 years and is a child with a disability.
HB0237	SB0126	State Department of Education - Early Literacy and Dyslexia Practices - Guidance and Assistance	Delegate Ebersole	Senators Hester and Zucker	Passed In House (130-0) ; In Senate First Reading EHEA	In Senate Hearing 1/27 at 11 AM EHEA	Support with Education Advocacy Coalition Testimony	Support to enhance training and awareness of dyslexia practices and needs of students to succeed in school
HB0266		Student Education Equity Grant Program - Established (Student Education Equity in Funding Act)	Delegate Cox		In House Hearing 2/3 at 1:30 PM W&M		Oppose with EAC	May be problematic if it requires appropriation to more BOOST slots as there are no protections yet in admissions policies for discrimination against children who have disabilities.

HB0273	SB0266	Education - Voluntary Ethical Special Education Advocate Certificate Program	Delegate Turner	Senators Patterson and Benson	In House Hearing 1/27 at 1:30 PM W&M	In Senate Hearing 1/27 at 11 AM EHEA	Oppose	The bill would create a “voluntary ethical special education advocate certificate program.” The purpose of the bill is unclear. “Advocate” is not defined, and it is not clear who the bill is intended to encompass. Second, the bill would allow “advocates” who complete a webinar or online training module to obtain a certificate of completion, but the content and length of the webinar or module are not specified. There is no reason to assume that a person who completes the webinar or training module would, by virtue of having received a certificate of completion, have reached any particular level of achievement or would automatically be an “ethical special education advocate.” Third, because the program is voluntary, there is no guarantee that “advocates” who may be in need of the training envisioned by the bill sponsors would avail themselves of it. The bill is vague and would have no practical meaning if enacted. In fact, the bill might have the unintended consequence of leading people to believe that an advocate who possesses a certificate of completion of the program is more qualified than he or she actually is.
HB0370	SB0225	Education - Public and Nonpublic Schools - Seizure Action Plans (Brynleigh's Act)	Delegate Kerr	Senators Young and Feldman	In House Hearing 1/20 at 1:30 PM W&M	In Senate Hearing 1/20 at 3 PM EHEA	Support	Would require training of all school personnel, including bus drivers, on seizures. Select staff would be trained to provide emergency first aid to students experiencing seizures.
HB0392		Child Care Centers - Early Childhood Screening and Assistance	Delegate Guyton		Passed in House (115-15); In Senate Hearing 3/25 at 1 PM EHEA		Support	This is a repeat bill from last session that would increase childhood screening for early identification and intervention.
HB0405		Special Education - Judicial Actions - Attorney's Fees and Related Costs	Delegate Lopez		In House Hearing 1/20 at 1:30 PM W&M		Support	This bill would create a mechanism for judges to award expert witness fee recovery to parents when they are the prevailing party in a Special Ed case. The law currently allows for the award of attorney's fees to prevailing parents, but families have the burden of assuming expert witness expenses and many families cannot afford the expense of having expert witnesses while the school system regularly brings experts in at state taxpayer expense.
HB0496		Primary and Secondary Education - Mental Health Services - Expansion (Counselors Not Cops Act)	Delegate Wilkins		In House Hearing 2/3 at 1:30 PM W&M		Letter of Information	The Arc supports that SROs should be limited in schools, not be involved in school discipline, and that any enhancements to funding for supportive personnel be directed at providing additional counseling staff.
HB0724	SB0209	Special Education - Prolonged School Closure - Extension of Education Services	Delegate Guyton	Senator Peters	In House Hearing 2/12 at 1:30 PM W&M	In Senate Hearing 1/27 at 11 AM EHEA	Support	This bill would require a county board of education to offer and provide to certain disabled and special education students (whose schools are subject to a prolonged school closure) the option to continue attending school or receiving education services after the student's anticipated graduation date. Furthermore, the bill would require a county board to provide a notice to the parents or guardians of eligible students about a student's option to continue attending school or receiving certain education services.

HB0714	SB0300	Special Education - Learning Continuity Plan - Requirement	Delegate Guyton	Senator Peters	Passed In House with Amendments (131-0); In Senate First Reading EHEA	Passed In Senate with Amendments (45-0); In House First Reading W&M	Support	This bill would require an individualized education program or 504 Plan to include a learning continuity portion to be developed by the team, including the parents of the child as equal partners to the process. The component of the plan would be developed by the members of the child's IEP or 504 plan team at the time of the plan review and serve as a guide to ensure continuity of services and supports needed by the student to continue to receive a Free and Appropriate Public Education (FAPE) during emergency conditions - when the child is unable to access the school building for 10 days or more. This bill would become effective on October 1, 2021.
HB0715	SB0665	Public Schools - Self-Contained Special Education Classrooms - Use of Video Recording Devices	Delegate Guyton	Senator Peters	In House Hearing 2/10 at 1:30 PM W&M	In Senate Unfavorable Report EHEA; Withdrawn by Sponsor	See notes	This is very important to many of the families who are members of The Arc. The sponsor has done a good job of limiting the bill to only self contained classrooms. The sense is that this bill would help students as well as teachers in situations where there are unexplained injuries to a student. One concern that was voiced by opposition during the hearings was whether or not the schools would be able to use the footage "against" a student to justify another placement or disciplinary action. Despite assurances the video would not be used in this way, the sense was that the concern was too great, and it would be better to withdraw the bill this session to perfect it over the next several months and address concerns/provide safeguards.
HB0716	SB0371	Special Education - Individualized Education Programs - Educational Evaluations	Delegate Griffith	Senator Peters	In House Favorable with Amendments Report W&M	Passed In Senate with Amendments (47-0); Passed In House (132-0);	Support	This bill would create a mechanism for parents to obtain an evaluation paid for by the school in cases where the school has not provided the evaluation within prescribed timeframes. This has been critical for families during the pandemic as they have not been able to have their children evaluated or re-evaluated for education access supports.
HB0522		Public Schools - School Resource Officers - Prohibited Conduct	Delegate Washington		Passed In House with Amendments (93-40); In Senate Hearing 3/30 at 1 PM EHEA		Support	This bill would prevent school administration from directing a school resource officer (SRO) to enforce discipline-related school policies, rules, regulations or procedures and would also prevent an SRO from intervening to enforce discipline.
HB0547	SB0485	Maryland Medical Assistance Program - Dental Prophylaxis Care and Oral Health Exams	Delegate R. Lewis	Senator Augustine	Passed In House (130-0); Passed In Senate (47-0); Returned Passed	Passed In Senate (47-0); Passed In House (132-0); Returned Passed	Support	Expands payment to allow for more frequent cleaning appointments as indicated to be needed by dentists.
HB0621		Prince George's County - Elementary School Students - Daily Physical Activity (Student Health and Fitness Act) PG 504-21	PG County Delegation		In House Hearing 2/5 at 1:30 PM W&M		Support	It is well established that children benefit from daily physical activity and there are profound benefits for children with sensory needs who, when allowed to jump and swing (proprioceptive), are more ready to learn after these activities.

HB0765		Workers' Compensation - Occupational Disease Presumptions - Novel Coronavirus (Essential Workers' Compensation Act)	Delegate Terrasa		In House Unfavorable Report EMC; Withdrawn		Oppose	The bill states that employees of certain industries who contract Covonavirus will be presumed to have contracted the virus on the job. DD Settings are included. We know that COVID is unusually high on the transmission scale, and many people contract the virus through the course of everyday life, despite wearing masks and taking other precautions. With access to PPE and strict cleaning protocols now In the Developmental Disabilities settings, a staff person is more likely to bring a virus into the setting than contract it from the setting. Many day program staff work from home and even if they went into the setting once in 14 days, their exposure in the outside world is more so: It would be a mistake to make the assumption that an employee who has COVID contracted it in a DD setting for these reasons.
HB0608	SB0890	Early Childhood Education - Child Care Provider Support Grant Program (The Child Care Provider Support Act)	Delegate Solomon	Senator King	In House Heating 2/5 at 1:30 PM W&M	In Senate Hearing 2/25 at 11 AM EHEA	Support with Amendments	The bill is confusing in that it appears to apply to certain childcare programs that have experienced losses in enrollment but then another section says that eligible organizations are those that are not currently serving enrollees but would serve them within a certain time period after receiving the grants. The bill also prioritizes child care programs in certain zip codes and poverty concentration areas. Amendments would include those programs that support children with disabilities that are currently unable to access typical childcare programs due to their support needs.
HB0764		Education - Broadening Options and Opportunities for Students Today Program - Established and Mandated Funding	Delegate Kittleman		In House Unfavorable Report W&M; Withdrawn		Opposed	Opposed with other advocates as schools that receive these funds do no have to honor IEPs and individualized needs of students with disabilities
HB0914		Education - Home and Hospital Teaching Program for Students - Report	Delegate Bhandari		In House Hearing 2/17 at 1:30 PM W&M		Letter of Information	Would be a good initiative. We hope that one determination will be that Peyton's Law, passed in 2017, will have an annual appropriation for the Home and Hospital Program.
HB0939		Education - Student Education Grant Program - Established	Delegate Arikan		In House Hearing 2/17 at 1:30 PM W&M		Oppose	Private Schools don't have to honor the extra support students may need through an IEP. Unless they commit to following the IDEA and ensure admissions applications and protocols do not discriminate against children with IEPs who need additional support, they should not be able to access these grants.
HB0998		County Boards of Education - In-Person Instruction and Related Services - Requirement	Delegate Griffith		In House Hearing 2/24 at 1:30 PM W&M		Letter of Information	Requiring, notwithstanding any law, regulation, or executive order to the contrary, each county board of education, for the 2021-2022 school year, to require school buildings to be open each school day to provide in-person instruction and related services, including services such as speech-language pathology services, counseling, physical therapy, and occupational therapy, to certain students; requiring each county board to provide instruction and related services to certain students in person except under certain circumstances; etc.

HB1056	SB0827	Nonpublic Schools - Adequate Health Services - Eligibility for Reimbursement	Delegate Stein	Senators Waldstreicher and Hettleman	In House Hearing 3/3 at 1:30 PM APP	In Senate Hearing 3/3 at 1 PM EHEA	Support with Amendment	For some children with specific disabilities and a need for health monitoring, the inadequacies of health services and inability for non-public schools to be reimbursed for certain health service needs, may have been a barrier into the child's ability to be accepted into, and attend, certain schools. Amendment needed to ensure nondiscrimination in admissions and other policies on the basis of disability.
HB1181	SB0921	County Boards of Education - Accessibility Standards - Digital Tools (Nonvisual Access Accountability Act for Grades K-12 Education)	Delegate Guyton	Senator Lam	In House Hearing 3/3 at 1:30 PM W&M	In Senate Hearing 3/9 at 1 PM EHEA	Support with EAC testimony	Requiring digital tools developed or purchased by a county board of education to include specifications for access by students with disabilities, including nonvisual access; requiring a county board to provide a student with disabilities access to digital tools that enable students with disabilities to acquire the same information and access the same services as students without disabilities; requiring each invitation for bids or request for proposals for a digital tool to require submission of an accessibility conformance report; etc.
HB1296		Public School Students - Daily Physical Activity (Student Health and Fitness Act)	Delegate Walker		In House Hearing 3/3 at 1:30 PM W&M		Support	Physical education is very valuable for the health of students, not just as a way to relieve stress and provide movement for a healthier lifestyle, but for students with certain disabilities, the movement and ability to compress joints allows their proprioceptive sensation needs to be fulfilled, creating an environment for better learning and retention.
HB1355		Primary and Secondary Education - Repeating Previous Grade Level - Authorization (Education Recovery Act of 2021)	Delegate Griffith		In House Hearing 3/18 at 1:30 PM W&M		Support	On request of the student, parent, or guardian, authorizing certain students, regardless of the student's age or whether the student had completed all promotion or graduation requirements for the grade level the student seeks to repeat for the 2021-2022 school year, to repeat the grade level they were in during the 2020-2021 school year.
Health Care								
	SB0096	Public Health - Behavioral Health Programs and Health Care Facilities - Safety and Community Relations Plans		Senator McCray		Passed in Senate with Amendments (47-0); In House Second Reading Passed	Letter of Information	While the safety plan component of the bill is a positive development, the community communication plan is concerning. People with disabilities have the right to access the community and be in and of the community with preservation of privacy. NIMBY is a going concern, and it is possible this bill would fan that fire.
HB0368	SB0100	Task Force on Oral Health in Maryland	Delegate Bangall	Senator Kelley	Passed In House with Amendments (133-2); Passed In Senate (47-0); Returned Passed	Passed in Senate with Amendments (45-0); In House Hearing Canceled	Support with Coalition Testimony	Creates a task force to look at equity in access to dental care.

HB0321	SB0061	Public Buildings - Changing Facilities - Requirements	Delgate Ebersole	Senator Lam	Passed In House (130-6); In Senate Second Reading Passed	Passed In Senate (47-0); In House Second Reading Passed	Support	This bill creates a requirement for newly constructed or extensively remodeled public buildings to provide changing stations suitable to hold the weight of an adult.
HB0347		Criminal Law - Exploitation of Vulnerable Adult or Elderly Individual - Undue Influence	Delegate Shetty		Passed In House (131-4); In Senate Hearing 3/18 at 12:30 PM JPR		Support	WHY is this legislation important? • It is a fact that some adults with disabilities are vulnerable and at risk of a range of exploitative or coercive behaviors including financial, physical or emotional abuse. • The Attorney's General office notes that abuses against vulnerable adults are escalating in our communities. Even more troubling is that for every case of abuse that is reported to authorities, experts estimate that as many as five cases go unreported. • Those who are elderly, or have significant support needs are at an increased risk of losing their assets to those exerting undue influence on them. This legislation redefines the term "undue influence" and adds factors the court must consider when determining whether property was obtained from a person with disabilities by undue influence.
HB0315	SB0136	Juvenile Law - Juvenile Interrogation Protection Act	Delegate Bartlett et al.	Senator Carter	Passed In House with Amendments (91-40); In Senate First Reading JPR	In Senate Hearing 2/4 at 11 AM JPR	Support	Often, children who become entangled in the legal justice system are questioned by law enforcement without a parent or attorney present. As a result, they face criminal charges, prosecution, and incarceration often without the basic due process rights to which adults are entitled. Without consideration for the due process rights of children, and supports to ensure these rights are upheld, our current system presents dangers for all children and particularly children with intellectual and developmental disabilities who may lack awareness of the severity of their situation. Some children with disabilities may experience dysregulation of their emotions or have adverse reactions to their environment, causing them to become disruptive or even aggressive. In these situations, trauma-informed and restorative practices/positive behavioral interventions are the keys to safe and effective incident resolution, but we have only just begun to see these practices used in our schools. Students with disabilities, therefore, remain vulnerable to disciplinary responses from schools, and police involvement in incidents.

HB0423	SB0271	Election Law - Voting Systems - Accessibility for Voters With Disabilities	Delegate Feldmark	Senator Lam	In House Hearing 2/2 at 1:30 PM W&M	In Senate Hearing 2/18 at 11 AM EHEA	Support with DD Coalition Testimony	This bill would require each voter to use a ballot marking device that is accessible to voters with disabilities to vote at early voting centers and election day polling places to ensure that access is provided to voters with disabilities in accordance with a certain provision of law; prohibiting certain ballots from being set apart or distinguishable, in size and form, to ensure that access is provided to voters with disabilities in accordance with a certain provision of law; providing for the application of this Act; and generally relating to voting systems and accessibility for voters with disabilities.
HB0493		Election Law - Voting Locations - Accessibility by Public Transportation and Voters With Disabilities	Delegate Guyton		In House Hearing 2/2 at 1:30 PM W&M		Support	Would require that absentee ballot boxes be accessible by a person using a wheelchair and that County Boards place priority of voting locations to those within 500 feet of public transportation.
	SB0327	Civil Actions - Financial Exploitation of Vulnerable Adults (Maryland SAFE Act)		Senator Waldstreicher		Passed Senate with Amendments (45-0); In House Hearing 3/31 at 1:30 PM JUD	Support with DD Coalition Testimony	Creates civil penalties for those who financially exploit people with disabilities.
HB0338		Business Regulation - Innkeepers - Records and Human Trafficking Awareness Training	Delegate Ebersole		In House Hearing 1/19 at 1:30 PM EMC		Support with Amendment	We want to make sure training includes data on victimization and trafficking of people with disabilities so innkeepers can identify possible victimization.
HB0500		Police Procedures - Requiring a Person to Lie Prone	Delegate Rosenberg		In House Hearing 2/12 at 1:30 PM JUD		Letter of Information with DD Coalition	Some people with certain disabilities such as Down Syndrome are at dramatically increased risk of injury or death if they are restrained in a prone position. The way in which this bill is written however may not accomplish the intention of the sponsor.
HB0508	SB0210	COVID-19 Claim - Civil Immunity	Delegate Attar	Senators West, Carozza, Hester, and Peters	In House Hearing 2/3 at 1:30 PM JUD	In Senate Hearing 1/26 at 1 PM JPR	Letter of Information	Would provide immunity for providers and potentially people who self direct from civil liability for claims from people that they contracted COVID in the line of duty. This bill also has other implications for people with disabilities who may have been the victim of improper treatment, and who wish to exercise their rights for remedy- If this bill should pass as broadly written, they would be denied this right and that is something The Arc Maryland cannot support.
HB0656		Election Law - Early Voting Centers - Accessibility by Public Transportation	Delegate Crosby		Passed In House with Amendments (104-32); In Senate Hearing 3/25 at 1 PM EHEA		Support	There is a significant portion of the population of people with disabilities who rely on public transportation. We support the requirement that a percentage of early voting centers be located within a short distance of public transportation stops.
HB0917		Corrections - Restrictive Housing - Prohibition	Delegate Amprey		In House Hearing 3/2 at 1:30 PM JUD		Support	Part of restrictive housing reform to account for the needs of individuals with I/DD and individuals with mental health conditions.

HB1000		Estates and Trusts - Guardian of Property of Minor or Disabled Person - Prohibition on Distribution or Disbursement	Delegate Pippy		Passed In House (138-0); In Senate Second Reading Passed		Support with Amendment	Prohibiting a guardian of the property of a minor or disabled person from distributing or disbursing property of the minor or disabled person without court authorization or confirmation if the guardian is not a family member of the minor or disabled person under certain circumstances; providing that, if a guardian of the property violates the Act, the guardian is liable for breach of the guardian's fiduciary duty to certain persons to the same extent as a trustee of an express trust; etc. Amendment including family members
HB1020		Election Law - Curbside Voting - Establishment	Delegate Williams		In House Hearing 3/9 at 1:30 PM W&M		Support	Providing that voters are eligible for curbside voting under certain circumstances; requiring that curbside voting be made available to all registered voters with disabilities recognized under a certain federal law; requiring each local board of elections to establish a location outside each polling place for curbside voting; requiring that a curbside voting location meet certain requirements; requiring that an election judge give a certain voter a paper ballot or, under certain circumstances, a handheld voting device; etc.

Bills We Are Monitoring or Evaluating by Topic

Community Living & Working

HB0055		Immunities - Associations, Organizations, and Charities - Liability of Agents and Volunteers	Delegate Crosby		In House Hearing 1/15 at 1:30 JUD		Monitoring	The bill could provide protections via continued nsurance coverages for DDA providers from organizational liability due to the unforeseen behavior of a volunteer
HB0124		Occupational Safety and Health Standards to Protect Employees - Aerosol Transmissible Diseases and COVID-19	Delegate Valderama		In House Hearing 1/28 at 1:30 PM EMC		Monitoring	Defines employer as having one employee so it would impact people who self direct and are employer of record.
HB0141	SB0275	Maryland Department of Health - Residential Service Agencies - Training Requirements	Delegate Sample-Hughes	Senators Hester and Hayes	Passed In House with Amendments (131-0); Passed In Senate with Amendments (47-0); Returned Passed	Passed In Senate with Amendments (47-0); Passed In House (132-0); Returned Passed	Monitoring	The bill requires residential service agencies to ensure staff receive training on dementia and related conditions within 45 days of hire. At this time, it does not appear that DDA residential service agencies are included in the definition, but that could change and so we will monitor.
HB0350		Labor and Employment - Maryland Healthy Working Families Act - Verification	Delegate Adams	Senators Hester and Hayes	In House Hearing 1/28 at 1:30 PM EMC		Monitoring	Prohibits employers from requiring certain documentation for to or after confirming eligibility for paid absences of employees.
HB0908	SB0816	Unemployment Insurance - Employer Contributions - Payment Plans	Delegate Carey	Senator Klausmeier	Passed in House with Amendments (137-0); Passed In Senate with Amendments (47-0); Passed Enrolled	Passed In Senate with Amendments (44-0); Passed In House with Amendments (125-0); Passed Enrolled	Monitoring	Would allow employers to spread out their payments over different and longer periods of time if funding was tight.

Health Care								
HB0078	SB0052	Public Health - Maryland Commission on Health Equity (The Shirley Nathan-Pulliam Health Equity Act of 2021)	Delegates Pena-Melnyk, Lewis, Crutchfield, Wilkins, and Williams	Senator Washington	Passed In House with Amendments (97-39); Passed In Senate (33-12); Returned Passed	Passed in Senate with Amendments (47-0); Passed In House with Amendments (96-35);	Monitoring	Like similar bills looking at unconscious bias and health equity, we would like to see more inclusion of disability factors. People with disabilities have experienced health inequities and biases for years, amplified during the pandemic. It is a topic we will push this session but likely need to continue work on in the off session period.
HB0393	SB0012	Maryland Office of the Inspector General for Health	Delegates Barron, Crutchfield, and Pena-Melnyk	Senator Hettleman	Passed In House (130-6); Passed In Senate (47-0); Returned Passed	Passed in Senate (47-0); Passed In House (132-0); Returned Passed	Monitoring	Removes this office from under DOH and makes it independent.
HB0028	SB0005	Public Health - Implicit Bias Training and the Office of Minority Health and Health Disparities	Delegates Pena-Melnyk and Lewis	Senators Griffith, Benson, Ellis, Kelley, Washington, and West	Passed In House with Amendments (99-36); In Senate Second Reading Passed	Passed in Senate with Amendments (40-6); In House Hearing Canceled	Monitoring	Does not specifically mention disabilities as a minority group who has been impacted by implicit bias.
HB0276		Congregate Care Facilities - Visitation	Delegate Henson		In House Unfavorable Report HGO; Withdrawn		Monitoring	Recognize importance of visitation. Concern is not with that as this has been an advocacy point, but want to make sure there are considerations for visitation during public health emergencies.
HB0537	SB0398	Mental Health Law - Petitions for Emergency Evaluation - Procedures	Delegate Ruth	Senator Carter	In House Hearing 2/16 at 1:30 PM HGO	In Senate Hearing 2/9 at 1 PM FIN	Monitoring
