ATTACHMENT A – RANKING SYSTEM SCORING

OVERVIEW

Definitions:

- Score: The value given to a performance by a judge in the range of 1-100
- Rank: A highest to lowest sequencing of the judges' scores (also called preference)
- Points: A fixed quantity of values awarded based on judicial rankings

Benefits:

A Ranking system has the benefit of providing Audience-Selected judges their "preference" based on their personal criteria of musical quality, fun, excitement, and enjoyment rather than prescribed scoring system of specifically evaluated musical and performance criteria. The Average person determines their level of enjoyment which is, in part, a reflection of the entire audience. The "points" awarded for preference, based on score, has a fixed value. Other favorable rankings from judges can accumulate, and the total points provide placement ranked on the judicial preferences of all judges.

SCORING

1. Judges will score each performance with a number from 1-100 (per performance; not per song).
2. Judicial preference is indicated by the following:
 - A. A higher score is more favorable
 - B. A lower score is less favorable

RANKING

3. Maximum Award points is determined by the number of quartets in the contest session
 - A. This example assumes 25 quartets
4. The judge's score, from highest to lowest by computerized sorting, produces 25 ranks for each quartet and calculates **Total Rank Points** based on these fixed values:
 - A. 1st Rank receives 25 points: judge's 1st score
 - B. 2nd Rank receives 24 points: judge's 2nd highest score
 - C. 3rd Rank receives 23 points: judge's 3rd highest score
 - D. 4th Rank receives 22 points: judge's 4th highest score
 - E. 5th Rank receives 21 points: judge's 5th highest score
 - F. 6th Rank receives 20 points: judge's 6th highest score
 -
 - G. 22nd Rank receives 4 points: judge's 22nd highest score
 - H. 23th Rank receives 3 points: judge's 23rd highest score
 - I. 24th Rank receives 2 points: judge's 24th highest score
 - J. 25th Rank receives 1 point: judge's 25th highest score
 - K. No Rank receives 0 Points

POINTS

5. In the Semi-finals up to a number of Quartets, specified and approved by the Board of Directors Quartets shall be scored by each judge.
6. The judges' Top 11 scores will have the ranking points accumulated to produce Total Points.
7. With 15 judges, many quartets will receive high, mid, and lower ranks from 1, more, or even all of the judges.
 - A. A Quartet could receive the maximum of fifteen (15) 1st rankings totaling: 375 points
 - B. A Quartet could receive 3 different ranks, 1st, 3rd, 5th, totaling: 69 points
8. A Semi-Final Points Ranking Report is generated by a proprietary software program that fixes the rank based on the judicial scores and judicial preferences. It is reviewed and certified by the Grand Poobah.
9. It is possible (though highly unlikely) that the final computer rankings could produce a tie. In that event, the tie will stand and both groups shall be awarded the position with the position below left unawarded. The exception will be for First Place where there will be a judged one (1) song sing-off for the Gold Medal. The judges for the final round will serve as judges for the sing-off.
10. The Top 10 quartets with highest Award Point Totals are qualified for the Top 10 Finals
11. 11th place winner will be designated the Mic-Tester

SELECTION OF THE TOP 11

12. Top 11 are selected from the Top 11 Point Totals based on judicial scoring ranks
13. Official Top 10 selection is approved by the Grand Poobah (GP) and provided to the MC for Announcement.
14. Order of Appearance for the Top 10 is by hat draw
15. 11th place is awarded the honor of Mic-Tester for the Top 10 Finals
 - A. Mic-Tester shall sing 1 song, first, before the Top 10 finals begin.

QUARTET PLACEMENT

The Computer Awards Ranking System software produces a **unique number of award points*** for every performance based on the basic premise of "Judicial Preference". (*see "tie" exceptions outlined in Paragraph 8 above)

Judicial preference, indicated only indirectly from judges' scores, creates these determinations, arriving at a final quartet placement.
