

Chananchita Chau, Health and Safety Coordinator

We have been asked by Chananchita to call her Chita. Originally from Chiang Mai, Thailand Chita graduated with a Business Degree and came to Canada 10 years ago. She is a lifelong learner and upon her arrival here she continued additional studies in Business Administration and Quality. Chita has held positions as a Quality Engineer and has extensive experience with large scale new program launches with Lead Auditor Certification.

In a previous role where there was not a defined Health and Safety Program, Chita offered to develop it on top of her regular role. This worked sparked a strong interest in Health and Safety as she shared she is happy when helping others so Chita began to pursue the Health and Safety Program at Fanshawe.

Chita shares her home with two cats Berger and Milo. In her spare time, Chita and her partner love to camp they have a pop-up trailer and camper van. Future plans are to continue traveling at least once per year and focus on some Canadian travel as well.

Welcome to Cheshire Chita!
