## Voice

Base Camp Connect uses existing networks to provide voice to users on the available extensions.

## Data

Base Camp Connect takes any available network to provide a wireless or cable Internet access to users without any interruption.

## MOBILE PBX, DATA AND RADIO COMMUNICATION SYSTEM

Base Camp Connect is the only user-deployable communication system you can transport anywhere, making true interoperability possible between voice, data and radio equipment/technology in a 5-minute setup without the need of a technician.

## RADIOS

Our radio interoperability gateway system provides a communication bridge between up to 10 radio networks with otherwise incompatible radios. Connect HF, VHF, UHF, VoIP, TETRA, P25, analog and digital.

## IN MINUTES

BCC provides an entire telephone system, an Internet connection and Radio interoperability.

## BENEFITS

- Auto-installation in minutes
- Single inbound number
- Interoperability
- Call recording
- Remote monitoring
