Tips for Online Giving

Thank you for continuing to support the ministries of Centenary during this time. We hope these tips will make online giving easier and ensure that your contribution is credited to the proper fund.

When donating online using the Centenary UMC website (centumc.org), please start by clicking "Give" on top of the homepage.

Next, there are several boxes for input.

1. In box #1 enter the dollar amount of the gift.

2. In the box #2 select "Pledged" or "Unpledged." Any gift shown as Pledged will be credited to the Operating Fund.

3. If the Fund "Unpledged" is selected, then you must make an entry into box #3 (Easter, Memorial IMO J Doe, Spring Flowers, or some other specific designation). Entering the correct gift purpose into the box #3 is important, so that your Contribution Statement will reflect where your gift is credited. If the box #2 is marked "Unpledged" and the box #3is left blank, then your gift will be credited to the Operating Fund.

4. If you want to donate to more than one designation, then you may click on the "Add More" (#4) and repeat the process for the next donation.

5. Finally, type in your email address (#5) and then click on "Continue."

Continue to the next page and fill out your payment information and click on "Give" on the bottom of the page. Your transaction is then finished!
