

# Share your experience.

We strive to create an environment focused on patient and family needs. You may receive a call, text, or email after your visit asking about your experience. This call or email should only take a couple minutes of your time. Please answer the questions candidly.

## Your feedback is important to us.

*You may be asked questions like these:*

- During your most recent visit, did the provider listen carefully to you?
- Did the provider give you easy-to-understand information about your health questions or concerns?
- Would you recommend us to your family and friends?
- Free-response question makes space for your voice to be heard.
