

# CARE BAGS

Care Bags are made available for guests to take on their way to treatment or visitation each day. If you have ever been a patient or spent long days at your loved one's side, what did you wish you had with you?

## GUIDELINES

- All items must be individually packaged and non-perishable.
- Prepare no more than 50 bags at a time.
- Reusable totes, small paper bags, gift bags, or resealable plastic bags work well.
- Bags can be assembled offsite and delivered or onsite in an outdoor space.
- Deliveries are accepted Monday through Friday between 8:00AM and 7:00PM.
- Contact the Community Engagement Coordinator to schedule a delivery date and time or an onsite opportunity.
- Bring all donations to the front porch and ring the door bell. A staff member will assist you.
- Please wear a face mask and practice proper social distancing.
- Include your name and your group's name (if applicable) with items.
