

## Ride Health Transportation Platform

### Eligibility:

A comprehensive transportation program for individuals who are enrolled in or are seeking treatment, recovery, prevention or harm reduction services for substance use **from a NYS OASAS provider**.

This initiative will assist individuals by providing them transportation to and from a variety of destinations that support their individualized prevention, treatment recovery and/or harm reduction efforts and goals.

***Transportation arranged must be for transports not eligible for coverage under Medicaid transportation, Medicare, or private insurance.***

The patient must agree to have patient profiles set up on the Ride Health system (consent form needed and should be placed in patient chart).

Types of transport include:

- To/From hospital to clinic and home for assessment,
- To/From home for assessment and treatment services,
- To/From DSS and/or HRA appointments,
- To/From primary care (at agency location or another location where primary care is not offered on site),
- To/From specialty care services that the client may need (such as dental);
- To/From housing related appointments,
- To/From pharmacy to pick up prescriptions,
- To/From Recovery programs, and/or Recovery Support Services (AA/NA, etc.),
- To/From food pantry/distribution sites; to/from residential facility,
- To/From grocery stores.
