

Panasonic KV-S5078Y

Outstanding Light-Production Scanner

The Panasonic KV-S5078Y, which has claimed the BLI Summer 2020 Pick award for Outstanding Light-Production Scanner, offers...

- Cost effective light-volume production scanning
- Accurate OCR and robust compression capabilities
- Automated image enhancement, data extraction, file naming, and routing features at the press of a button
- PC-less scanning to email, shared folders, and FTP

With a rated scan volume of 60,000 pages a day, top speeds of 120 pages per minute, and rollers that are rated for 700,000 scans, the Panasonic KV-S5078Y offers the performance of a light production unit at the cost of a departmental scanner. But it's not the speeds and feeds that make this unit stand out. Everything from image clean up and data extraction to file naming and routing can be handled automatically by the scanner and bundled software.

"The Panasonic KV-S5078Y is the ideal scanner for businesses that want to extend business process automation to a centralized point of capture," said Lee Davis, Associate Director of Software/Scanners at Keypoint Intelligence. "The device was an excellent performer during our speed and durability testing and was a standout during OCR accuracy and file-size testing. Between its stellar performance and convenient process automation capabilities, it's clear that the Panasonic KV-S5078Y is worthy of this Pick award for Outstanding Light-Production Scanner."

About Keypoint Intelligence - Buyers Lab

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled services and unmatched depth of knowledge, we cut through the noise of data to offer clients the independent insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About Buyers Lab Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab's Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
