Fall Safety Tips!

Be Seen on Those Darker Walks!

Shorter days mean more walks in low light. Use reflective gear, a light-up collar, and a secure leash. Make sure your pet's ID tags are current and their microchip registration information is up to date in case they get lost.

Beware of Antifreeze!

Antifreeze can be extremely toxic to pets, even in small amounts. Clean up vehicle leaks immediately and store automotive products securely. If you suspect exposure, contact a veterinarian or animal poison control service immediately—don't wait for symptoms.

VOLUNTEER SPOTLIGHT!

Volunteer Spotlight: Jess!

We're proud to recognize one of our incredible volunteers- Jess!

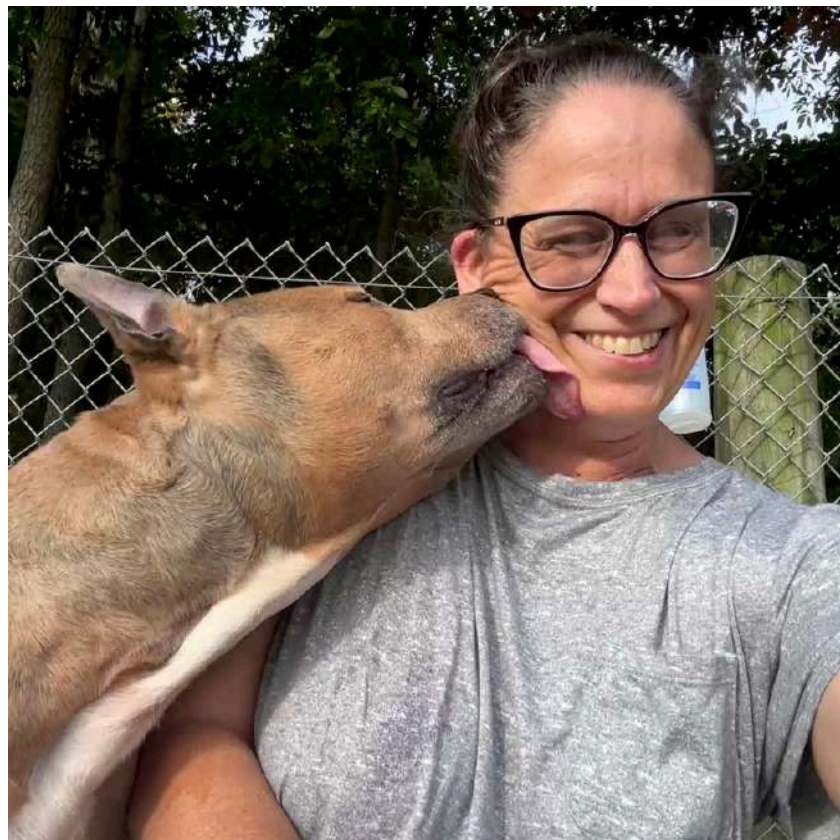

Some people join the team and make an impact right away—and Jess is definitely one of them! ❤️ Although she's a newer volunteer at HSLC, Jess has jumped right in and found so many ways to make a difference for our animals. From walking dogs and helping at events to showing up for fundraisers, she's always willing to lend a hand. And that's not all! Jess even

hosts shelter animal enrichment classes in her own home! How amazing is that?!

Beyond everything she does, Jess brings something extra special to our team: her friendly personality, positive attitude, and genuine enthusiasm. She has a way of making people feel welcome, and her willingness to get involved is such a wonderful addition to HSLC.

We are so grateful for volunteers like Jess who give their time, energy, and hearts to helping shelter animals live happier, healthier lives. It's volunteers like her who remind us just how much of a difference one person can make!

Thank you, Jess, for jumping in with both feet and sharing your time, talents, and positivity with HSLC. We absolutely love having you on our team!

SHELTER DOG FIELD TRIPS!

Did you know...YOU can field trip a shelter dog!

When a dog leaves the shelter, even for a few hours, their entire world opens up. The constant noise and stress of kennel life fade away, allowing their true personality to shine. Many dogs who seem anxious or withdrawn in the shelter transform into relaxed, affectionate companions once they're out in the real world.

Here's why these outings are so important even when they have to come back:

- **Stress relief:** Time away from the shelter lowers anxiety and improves overall well-being.
- **Better behavior insights:** We learn how dogs act in homes, cars, and public spaces—helping us make better adoption matches.
- **Increased adoption chances:** Dogs with field trip photos and stories get more attention and interest.
- **Socialization:** Exposure to new people, places, and experiences builds confidence.
- **A mental reset:** Even a short break can make a big difference in a dog's mood and outlook.

Field trips also give our community a chance to connect with these amazing dogs outside of the shelter environment—and often, that's when the magic happens!

To get involved; please email us at Info@lebanonhumane.org

RESIDENT SPOTLIGHT

DUTCH & ORLA

This duo was abandoned together outside in the alley of the Humane Society's Thrift Shop.

They seem to be very much in need of each others company to thrive. They are a bonded pair and must be adopted together. They are both pretty low-key! They definitely enjoy a comfy bed to snuggle up on together.

We think Dutch (male) is close to 7 years old and we have Orla (female) closer to 3 years old.

Adopt a Bonded Pair!

RESIDENT SPOTLIGHT

MURPHY

Murphy is a Pittie mix that is estimated to be around 2-3 years old. He originally found his way to us as an unclaimed stray in January of 2025. He was recently returned due to not doing well with men in the home and males visiting the home. Murphy would thrive best in a female-only home. He has done well meeting all new females here at the shelter and is a

very friendly boy! He enjoys going for walks and independently exploring the yard. He enjoys running around and playing with neighboring dogs through the fence in the play yards! Murphy knows to "sit" on command and enjoys affection from his human friends. He previously lived with children in the home and did well over time with them. Murphy would do well with older children in the home aged 6 or older. Per the previous adopter, Murphy was housebroken. Murphy participates in dog play groups and played well with 4 other dogs! He is a social butterfly with other canines! A meet and greet would take place at the shelter with other dogs living in the home of future applicants to ensure it is a good match. Murphy has the potential to live with cats with proper introduction.

COMMUNITY ENGAGEMENT

Cleona Coffee Roasters Partnership with HSLC!

Drink Coffee.

Save Lives.

\$5 from each bag sold is donated to the shelter.

Each month, 3 adoptable animals will be displayed to help gain exposure and increase adoptions!

**\$5 from each bag sold is donated back to the shelter!
AND....if you adopt a “coffee bag animal” Cleona Coffee Roasters will give you a \$50 gift card!**

COMMUNITY ENGAGEMENT

BARK & BREW

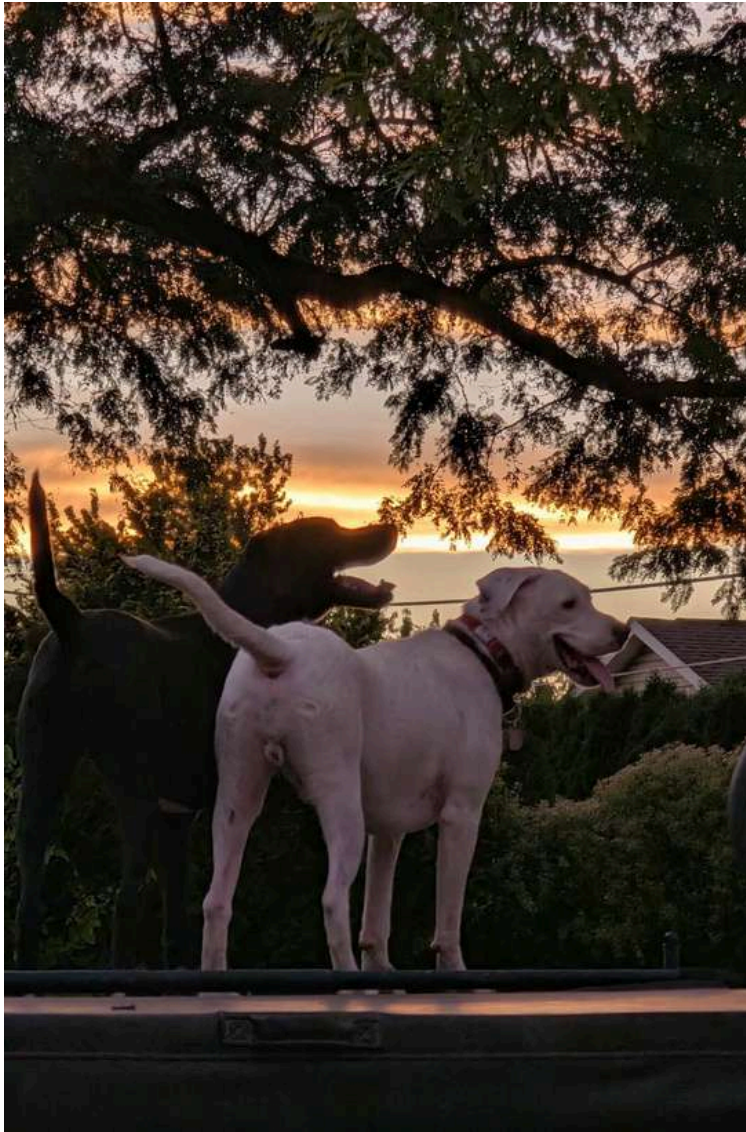

They donate 5% of every drink sold to the Humane Society,
so every cup helps a pup.

Follow them on Facebook: Bark & Brew LLC

SHELTER to SOFA

Willie Nelson & Waylon Jennings

Waylon Jennings and Willie Nelson's story is one that reminds us what adoption is truly about.

These two boys found their forever family after being adopted from HSLC, and their family has shown them what it means to be loved through the hard times, not just the easy ones.

Willie was diagnosed with a lifelong medical condition and also had a few behavioral quirks that needed time, patience, and understanding. From the very beginning, his adopters were committed to him. They didn't walk away when things became challenging. Instead, they learned what Willie needed, met him where he was, and continued to support him every step of the way.

They have embraced his medical needs, worked through his behavioral challenges, and—most importantly—continued to love him exactly as he is.

This is what a dedicated family can do for an animal in need. Sometimes adoption isn't about bringing home the "perfect" dog. Sometimes it's about seeing the potential in an animal, understanding that there may be challenges ahead, and saying, "We'll figure it out together."

Waylon and Willie hit the jackpot with their family. Thank you to their adopters for showing us the incredible difference patience, commitment, compassion, and unconditional love can make in an animal's life.

We couldn't be happier for these boys—and we are so grateful to be part of their journey.

Happy tails, Waylon & Willie
