

## Profile of a Virginia Classroom (continued)

The other five components of the Profile of a Classroom are 6-8 page Briefs on the key topics below. In the coming weeks, we'll share and discuss these Briefs in our newsletter as well as through our professional learning programs and offerings to members. Topics of the briefs are:

### **Creating a Culture of Respect**

*How does my classroom celebrate who my students are as people and as learners?*

### **Planning for Deeper Learning**

*How do our plans reflect what we value for students?*

### **Implementing Quality Instruction**

*How do we facilitate deeper learning experiences for each student?*

### **Embedding Assessment and Feedback**

*How do my classroom practices guide student progress and facilitate growth?*

### **Redefining Teacher and Student Roles**

*How do we share ownership of the learning process with students?*

We look forward to posting the Profile of a Classroom Briefs on the VASCD website in the next two weeks, where they will available for download. In the next few weeks we will also share a curated list of resources that support and add detail to each Brief.

We are grateful to **Ebbie Linaburg**, VASCD Board of Directors Member, for her leadership of the project. Many educators from across the Commonwealth also contributed ideas, reviewed drafts, and shared their thinking throughout the process.....**THANK YOU EVERYONE!**
