Paul Yu Liu Excellence in Wound Healing Award eligibility criteria:

• Surgeon-scientists who have received their MD or DO degree, and are in or have completed surgical residency.

• Be actively engaged in either lab or clinical wound healing research, as demonstrated by conference presentations, publications, grants, or other activities

• Be within 15 years of completing their last training position

• Exceptions may be made for extended time off for child or family care, or other extenuating circumstances, on a case-by-case basis. If such circumstances apply, please contact the Foundation to confirm eligibility prior to submitting your application

• Nominated by a person in the wound research or wound care or wound healing community

• International nominees are eligible

Application package:

1. Each nominee is nominated via a nomination letter which includes:
    a. Name, degree, and position of the nominee.
    b. A list of wound healing-related publications within the last 5 years.
    c. Nominee's CV
2. Statement regarding the rationale for the nomination that includes
    a. Detailed contribution of the nominee to wound healing research
    b. Nominee's commitment to wound healing research
    c. Nominee's potential to become a leader within the wound healing community

3. Two to three (2-3) additional letters of recommendation from the nominee's mentors and/or established investigators in the wound healing community.
