Leading a Hot and Spicy - EOC Management Team

Speaker Panel TBD

Speaker Coordinator: Danny Scott, Summit Pacific Hospital

Environment of Care (EOC) Team is a critical function of our Hospital Collaboration and regulatory expectations. Our panel of speakers will provide examples of their successes in transforming a mundane “meeting” into a collaborative effort to improve safety in our built environment and practices AND have fun in the process.

10:30am (YCC - TBD)

Cyber Security - Protecting Hospital Infrastructure from IT Attacks

Matt Olson, Manager Cyber Response - Providence St. Joseph Health System

Speaker Coordinator: Mike Dover, Providence St. Peter Hospital

Our dependence upon Information Technology from patient information, internal communication, shared files such as policy and building system controls has exponentially increased. Our speaker will give us an update of security in the digital age. Where our vulnerabilities for a cyber-attack and what measures do we need to take to both protect our infrastructure and respond to an infiltration of our systems.
