Pilot Counselor-In-Training (CIT) Program

New enrollment opportunity for campers age 13-15!!

CYC is offering a newly-designed CIT program drafted for older campers who would like to experience camp from a Camp Counselor point of view. The program is intended to develop leadership skills that can be applied to all aspects of their life; school, home, and community. The program offers hands-on learning and is ideal for youth who loved their time in CYC programs and have a desire to work with children in the future. This program will prepare participants for possible future employment with CYC or other school-age childcare programs.

The program will consist of a 3-week session during which training will be provided in such areas as child development, safety and supervision, program environment, and best practices. Each week will begin with a training and orientation session in preparation for the week's focus. The rest of the week will include daily training and shadowing of camp counselors in real life camp situations. CITs will be responsible for assisting counselors in leading activities, maintaining safety, keeping campers engaged, being a positive role model, set-up, and clean-up. Participants will obtain an understanding of counselor responsibilities and should be able to demonstrate and explain those responsibilities to show program success.

Participants may choose 1 of 2 available 3-week sessions. The content of both sessions is identical. Completion of this pilot program may lead to additional leadership opportunities in expanded CIT programming next summer or possible employment opportunities in the CYC childcare programs for those students turning 16 years of age.

Space is limited to 10 CITs per session; 5 will train with the Boght Hills Summer Day Camp and 5 will train with the Sand Creek Summer Day Camp.

Each potential CIT will need to be a past CYC program participant, must submit an application, be interviewed/accepted into the CIT program, and register as a current CYC camper.
