

## Be a Part of the Discussion!

### NARHC-News & Technical Assistance Forums

Take part of RHC discussions with your peers. Subscribing is easy!

NARHC offers 3 different Forums:

- **NARHC-News:** anyone can post, anyone can answer. This forum is used to post helpful information for other RHC staff as well as ask questions you may have regarding operating your RHC.
- **Technical Assistance:** One-way communication tool from NARHC staff as well as the Federal Office of Rural Health Policy posts breaking legislative news and updates, upcoming FREE technical assistance webinars and trainings and more!
- **Consultant-News:** This forum is for NARHC member consultants only to ask questions of each other and discuss many important RHC topics in a private setting. If you are interested in member benefits as a consultant, please contact us at 866-306-1961 x 1.

All forum posts are delivered directly into your email where you can choose to receive them as they are posted or in “digest” form (daily or weekly). In order to subscribe to either Forum, you must have an account on the NARHC website. There is no charge to set up an account and you DO NOT need to be a NARHC member to create an account. Many of you already have a NARHC account because you are a NARHC member or engaged in some type of transaction with the Association.

If you already have an account, go to the narhc.org website, click on the Discussion Forum tab and login with your email and the password you have already created with NARHC. Scroll down to the bottom of the Discussion Forum page and click on the word “Subscribe” behind each Forum listed. If it says “Unsubscribe” – that means you are already subscribed! [Click here](#) for the Discussion Forum tab.

If you don't have an account, [Click here](#) for detailed instructions.
