

Calling All Nurses

Working in underserved and/or rural settings

We need your help!

Loyola University Chicago Marcella Niehoff School of Nursing invites all nurses and advanced practice nurses working in underserved and/or rural settings to respond to a survey examining the factors that influenced you to work in your current practice setting and what factors contribute to your continuing to work there.

This survey is part of a Health Resources and Services Administration (HRSA) grant and will help us better understand how to prepare nursing students for potential roles in these areas.

Your responses to this survey are confidential and will not be shared with other individuals. Aggregate results will be used to develop strategies for encouraging nursing students to seek careers in underserved and rural practice settings.

This survey has been approved by the Loyola University Chicago IRB (#TBD). Advancing forward in this survey indicates your willingness to participate in the study.

The survey can be accessed at <https://www.surveymonkey.com/r/B88NZL6>. Any questions can be directed to Jennifer O'Rourke, PhD at jorourke1@luc.edu.

Thank you for contributing to this important study!

Jenny O'Rourke, PhD
