

For March 4th

T.I. Time Travel Alert – The Bilmar brings back its original logo!

Some marketing person told us to make our logo more modern with block letters, but it just never seemed to fit. Though we recently upgraded the guest rooms and building exterior we still celebrate our vintage roots... We had the wisdom to keep the old cursive style on the side of the building. Yep, it's still there. You've driven past a million times and saw those comforting swirls of blue. Keep watching, as we go retro and change the sign on the street as well as all the places you see our logo. Thank you for your community support since 1961!
