## Clear Vision Media Opens New Location in Florida

*Treasure Island, Florida (December 1st, 2020)*

Clear Vision Media, a Northern Indiana-based full-service Google-listed digital communications agency and turn-key content creation production company, announces a new office location on the beautiful Treasure Island.

Clear Vision Media recently opened its newest office location in Treasure Island, Florida. This new location, located on Gulf Blvd, will provide better access to Clear Vision Media's customer base, says Chris Sanchez, Principal Partner of Clear Vision Media. Not only does this location allow Clear Vision to serve its clients better, but it provides a centralized location to help our clients quickly and offer space where our clients can view their projects in a state-of-the-art facility.

### **Agency Opens Florida Location:**

Chris Sanchez, CVM Principal Partner, has leased premium office space in the "now" Chase Building at 10681 Gulf Blvd. "While we've successfully operated in Florida for several years, this new brick and mortar

decision will help us drive growth and strengthen our overall position in the marketplace," states Sanchez. "This move will also allow further future expansion in line with an industry that is embracing technology evolution and a strong acceptance over traditional advertising/marketing approach." Their new offices are located at 10681 Gulf Blvd, Treasure Island, Florida. The phone remains 574-551-9998. Web: [www.clearvision.media](http://www.clearvision.media).
