

YOU HAVE ALL THE POTENTIAL IN THE *WORLD*

And Big Brothers Big Sisters can help you ignite it.

We match students in 2nd—11th grade with positive, caring adult mentors. Matches get together for a few hours 2-3 times a month and do normal, everyday activities, like playing games, going to the movies, or just hanging out together.

By simply being a friend, Bigs help Littles navigate peer pressure, tough classes, trying to fit in, and all the other things that children and teens might experience as they grow up.

Are you in 8th grade and above?

Big Brothers Big Sisters has additional resources available for you, including:

- College and career prep resources like ACT prep, FAFSA assistance, and a scholarship database just for Littles
- Full-time staff that are experts in supporting students in 8th grade and above. These match support specialists are able to provide coaching, resources and tips to helping you create a plan to reach your personal, educational, and careers goals
- Fun and useful events, such as resume workshops and career fairs, that offer opportunities for personal and educational growth and development

What's next?

Enrolling in the program is easy! To get the process started, fill out our quick form at bbbskc.org/enroll. We'll reach out to schedule your orientation, where you'll learn the basics of the program. After your orientation, a staff member will conduct an in-home interview to get to know each child personally. BBBS staff then work to find the best match for the child(ren) based on their personality, needs, and location.

Once a match is made, the family, Little, and Big will all be professionally supported by a match support specialist who is there to offer advice, opportunities, and resources.

Visit bbbskc.org/enroll or contact us at getabig@bbbskc.org to learn more.
