

Cruises With A Non-Owned Boat

Participating in one of our Adventure Cruises or Low Country cruises is an excellent way to explore our area's waterways or venture into new territories with fellow members of ABCHH. Everyone is encouraged to join these events to experience something different, learn from the Cruise Leader, and most importantly, have fun on the water.

Our club boasts a diverse membership base, with some members owning boats and others belonging to various boat clubs in the area, such as Carefree, Freedom Boat Club, Wilson's Landing Boat Club, Skipperi, and so on. None of this matters to the Cruise Leader. Captains who sign up for a cruise can rent a boat, borrow one, belong to a club, or use their own boat. We don't ask, track, or care about any of these details. We simply ask that you operate your boat safely and follow the instructions of the Cruise Leader.

It's the responsibility of each individual Captain to be aware of any restrictions imposed by their clubs, rental agreements, or owners' insurance policies on participating in these events, such as an operating radius. If you have any doubts, please consult with your boat owner before registering as a Captain. It would be quite disappointing to be scheduled to rendezvous with a cruise only to be informed by a deckhand at the last minute that you are not permitted to join us.

See you on our next cruise!
