

Hilton Head Island Fun Adventure Cruise to AJ's Luncheon on Tybee Island
Low Country Cruises formally Magellan Cruise – July 13, 2024
Submitted by Ron Robinson

Ron Robinson, the Cruise Captain, welcomed each of the six captains and their guests at 10:30 at the entrance of Cooper River for a fun adventure cruise. Ron announced that Paul Hoyte, our seasoned Magellan captain, would lead the flotilla of six boats with 23 adventurers on a safe route to AJ's Dockside Restaurant on Tybee. It was a perfect morning with calm seas and a mostly sunny day. The one and half hour cruise would take us via the ICW and then through a series of connecting waterways to the waterfront restaurant. Along the way we stopped twice while Linda Harris gave some interesting information about container ships on the Savannah Shipping Channel and the history of the Tybee Light House. After docking all the boats on a crazy, creaky wooden dock, we all proceeded into the restaurant and enjoyed lunch. The group also then had the opportunity to socialize with adventurers on other boats. During lunch, black ominous clouds began to build in the distance even though there were no forecasted weather threats.

When it was time to leave Tybee Creek and cruise home, Paul once again led the way. On the way home, those ominous, dark clouds continued to build with distant lighting strikes. It sure looked like it would be a wet ride home! For sure it was on our heels, but fortunately we were cruising fast enough to stay just ahead of this challenging weather.

Here is hoping that our future cruises will be as enjoyable and as safe as this one!
