

Assessment Training Institute

Build skills while increasing program-wide fidelity of BDI-2 administration

The DPH EI Training Center (EITC) and UMASS Boston have paired up to offer a comprehensive assessment training institute. This opportunity aims at building assessment skills and knowledge for EI specialists who are interested in increasing BDI-2 fidelity of administration at their program. The institute will include four days of training over four months where providers can come and learn:

- more about assessment/evaluation
- ways to improve program BDI-2 fidelity
- checklists that will help assessment administration and providing staff feedback.

Providers will learn through small group work, videos, lecture, online modules, practice opportunities, and feedback.

Training Dates... 9/27, 10/25, 12/6, and 1/10. **Priority registration for programs who have not already attended the previously offered institutes through the end of June. July first registration will be open to everyone.** Participants must attend all four days. Location is TBD and the trainings run from 10-3.

Please visit www.eitrainingcenter.org to register. Contact Emily Webb with any questions emily.webb@state.ma.us.
