

**Q. Talk about the round.**

**CARLOS FRANCO:** Well, I played very solid the last 27 holes. Yesterday on the back nine I shoot 5 under and today I played really, really confidence because only three shot behind the leader and I know exactly what happened, I need to make it and I think so. My number today is 8 under par and I shoot 7, now tied for the leader. But I'm so happy for my second tournament this year and chance to win.

**Q. Your approach on 18, you looked very disappointed that it didn't clear the bunker.**

**CARLOS FRANCO:** Yeah, because normally my shot on bunker save is always touch the hole or very close and that one I missed too much right side. But when you like to win or you like to close to the pin or you a little hungry because you don't need to go low, you need a 5 for every shot. Last hole I need to make birdie, it's a par 5.

**Q. It's pretty unusual for somebody to say that the number they had in mind was 63. That's a pretty low number to have in mind. Usually it's 65, 66 you think. How did you come up with 63?**

**CARLOS FRANCO:** You know, I'm lucky. On No. 10 hole I make a three-putt today. I make three bogeys on the week. I make three three-putts and three bogeys. No missed the green much for chance to make bogey, that would give me confidence today. I try to make a 63 because my partner in my last, Fabio Zanotti, who won the European Tour and he shoot 63, 9-under par. Another 63, maybe another win. Well, I'm happy. This golf game, you don't know who's the win or you need to finish three days, especially for the Champions Tour. The last hole very important to chance to win and have to focus no make bogeys.

**Q. You don't very often get into a situation where on Sunday you've got a leaderboard that looks like this one, I think there are like 10 players double digits under par, you know? What's that do to your mindset?**

**CARLOS FRANCO:** You know, the more difficult is you prepare to come on the last day because you see on the scoreboard after second day how many guys have chance to win and maybe have plenty of guys with chance to win. Four, five shots behind the leader, that's nothing for 18 holes. I come very confidence today to try to make the low score, but no make a complication because everybody play well, everybody play good. Surprise and make a 65 and chance now for the win.

**Q. By the time you started this morning, there was also somebody with five straight birdies on the leaderboard, somebody else I think with six straight birdies on the leaderboard. What does that do to your mindset when you're going out there?**

**CARLOS FRANCO:** You know, when I checked the score I saw the guys 17 earlier, I said oh, my God, this may be 20 or 19 under par. But I say, no, don't worry Carlos, play golf and check what happen after 15 or 16 holes because everybody have chance to win, everybody play well. Not surprised here because everybody make a very low score to win the tournament.
