

Dr. Autumn Dae Miller

Meet Dr. Autumn Dae Miller, Behavior Manager at KenCrest where she has worked for 5 years. Autumn hails from the far off land of Ohio; however, her educational journey took her through a 4-year tour of Ithaca College and a radical redirection to Widener University to complete her M.Ed. and Ph.D. Autumn finished her graduate school career after completing a dissertation study on Autism and Intimacy. Autumn has been working in the field of sexualities and disabilities for almost 15 years and has made it her personal mission to educate, empower, and enrich anyone seeking guidance on how to tackle the messy and misconstrued world of human sexuality.
