Mad Science has what you need to get started in the fall. Check out all the exciting programs we have to offer!!!

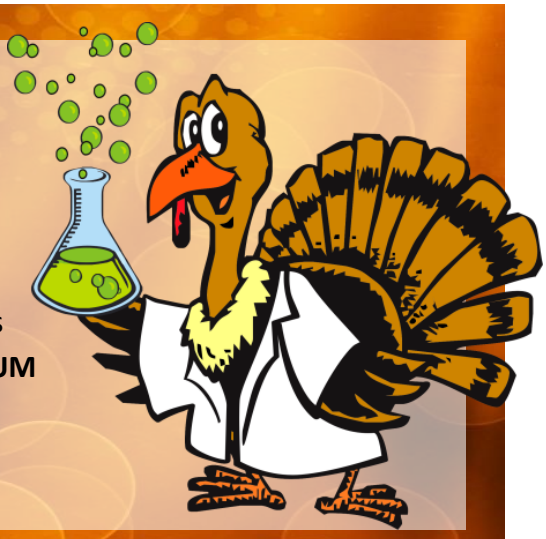

Show: We need your help this season! Count "Egg"-ula needs to get inside his castle, Mr. Coffee Cup was invited to a party, but has no costume and test some amazing bubbling potions! Our fa-BOO-lous show will thrill and excite!

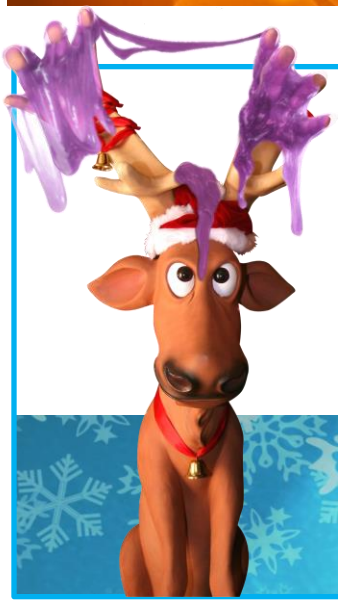

Booths: Add a little bit of spooky science to your next event with **Edible Spider Webs** (cotton candy), **Exploding Jack-o-Lantern**, **Floating Eye-Balls**, **Science Potions** (dry ice), **Hair Raising Experience** (Van de Graaff) and don't forget about the **SLIME**!

Floating TURKEYS Workshop: Discover the science behind magnets and learn how you can connect paperclips together by magnetizing them! Find out why an electro-magnet is so strong and take home a floating turkey.

Booths: Perfect for your next fall carnival and/or event. Make the perfect fall painting with **SPIN ART**, be thankful for **SILLY PUTTY** (it is all the "MATTERS"), do bowling the Mad Science way with **PENDULUM PUMPKINS** and make those turkeys fly with our **TURKEY TROTTING CATAPULTS**!

Indoor Snowman Workshop: The perfect Texas snowman is one that will not melt in the heat! Have fun with us as we discover the magic behind polyacrylamide and other science tricks, we can uncover in our Science of Magic workshop.

Booths: Make science the perfect gift for the holidays! We have fun, hands-on booths for the season. Create your own Color Blending ICICLES, play with non-melting SNOW, get a bit of chill with Dry Ice Fun and learn all about electricity and how all those holiday lights work!
