MediHerb Clinical Masterclass

For the first time, MediHerb's clinical experts are joining forces to present the ultimate clinical masterclass on botanical therapy.

Professor Kerry Bone and his protégés, Berris Burgoyne, Lee Carroll and Amanda Williams will present a full two day program covering a wide range of topics relevant to clinical practice including insights into the Endocannabinoid System, and common conditions affecting Cardiovascular, Musculoskeletal, Gut, Metabolic and Female Health. There will also be an indepth discussion on each speakers favorite herbs and how they can transform your clinical practice. Each speaker will share real life case histories and recent research to ensure you are up to date with the latest in botanical therapy and have strategies you can immediately implement to help your patients reach their health potential.

This seminar is a must for any clinician new to botanicals or those wanting to take their knowledge to the next level. A unique opportunity not to be missed.

WHAT YOU WILL RECEIVE:

- The combined practical wisdom of all MediHerb's clinical experts – together they have close to 100 years of clinical experience
- An indepth review of recent botanical research and what this means for your clinical practice
- Practical, simple protocols and strategies you will be confident to implement the next day in clinic
