**CECP Return to Learn Guide, After Spring
Break: 3-11-21**

Letter to the Community from Ms. Harris2
Recommendations on Spring Break Travel3-4
What to Bring to School & Reminders4-5
CECP Supports & Contacts.....5-6

Dear CECP Families,

I hope this letter finds you all healthy and safe.

As we have all seen during this pandemic, information and directives change on a weekly basis – and trying to create a safe, equitable, and rigorous model within a system that changes quickly can be difficult.

As you may be aware, Douglas County School District has announced it will be moving to a fully in-person format, 5 days a week, following spring break.

Thus, after careful consideration and weighing the safety of our students, staff, and community, **I have made the decision to combine cohorts A and B students to return to in-person learning 4 days a week, Monday through Thursday. Fridays will still be remote only. The combined cohorts will begin on March 29. However, during the week of March 22, we will remain in our hybrid, A (Monday/Tuesday) & B (Wednesday/Thursday), model.**

This means that if your student is in cohort A or B, they will be attending in-person classes. However, **remote-only students must remain remote** for the health and safety of the community. Likewise, **college courses will remain remote only.**

CECP's dedication to the health and safety of our students, faculty, and staff has always been (and will remain) our top priority. Our decision to return to campus in a limited capacity is based on the low number of cases in Douglas County and the fact that we have entered Level Yellow: *Concern*. We remain vigilant concerning the health and safety procedures and precautions in our building, on a daily basis.

Please read the following information on health and safety over and after spring break, reminders for the return to campus, and the other resources we have available to students.

Again, thank you all for your patience, understanding, and flexibility.

Sincerely,

Ms. Lily Harris

Interim CECP Head of School

Hello Students, Staff & Families!

As we are hopefully all very well aware, spring break is NEXT WEEK and many may choose to travel. We request that whatever you choose to do, you please keep the safety of our community in mind so we can finish the last 8 weeks of our semester strong!

According to the CDC, below are recommendations regarding travel:

- [Wear a mask](#) over your nose and mouth when in public settings (even if the state you are traveling to does not have a mask mandate).
- Avoid crowds and [stay at least 6 feet](#) (about 2 arm lengths) from anyone who did not travel with you. It's important to do this everywhere — both indoors and outdoors.
- [Wash your hands](#) often or use hand sanitizer (with at least 60% alcohol).
- Avoid contact with anyone who is sick.
- Avoid touching your eyes, nose, and mouth.
- Get tested with a viral test 3-5 days after your trip and stay home and self-quarantine for a full 7 days after travel, even if your test is negative. If you don't get tested, stay home and self-quarantine for 10 days after travel.
- Documentation and testing criteria for traveling internationally versus in country vary country by country and state by state. You will need to fulfil those criteria to be admitted back into the country and/or state.

We would like to encourage families or individuals that are traveling to consider two scenarios when returning home:

1. **After traveling, get a Covid test 3-5 days after returning from your trip. If negative you may choose to return to school. Here is a link for free testing sites in the Tri-County area: <https://www.tchd.org/827/Free-Testing-Sites>**
2. **After traveling, if no Covid test is done, consider having your student complete school work remotely for 10 days following travel.**

By taking extra precautions we will be able to help ensure the continued safety and health of our students and staff and keep school open for in-person learning. Thank you for your dedication to keeping our environment safe & healthy!

What to bring every day—

- Lunch and snacks that do not need refrigeration or heating. We will **NOT** be serving food from the café at this time. CECP has a vending machine with a variety of healthy snacks.
- Writing utensils: pens and pencils
- Paper, binder, notebook
- Laptop or tablet with Microsoft Teams downloaded (if available)
- Smart phone with Microsoft Teams downloaded (laptop or tablet preferred)
- Face mask that covers nose and mouth, not a bandana
- Student ID on a lanyard
- Water bottle. A liter of water is recommended. You will be able to refill your personal water bottle on the bottom level water fountain.

Protocol for Coming to Campus:

1. If you need to come to campus for any reason, please make sure you make an appointment or sign-up for a designated time (as with book check-out or picture day). Please avoid coming to campus unannounced.
2. Before arrival, please complete the following COVID symptom check-in, which requires a temperature check. You can follow the link or the QR code below:

https://forms.office.com/Pages/ResponsePage.aspx?id=GVTudcS0wU2uY2kxeXaK9H5fo0Q5uJ1ChZ_9_U NVwQIUOUZCVkFKUkpGOFNINKRRRk1YUDBBNFhOOC4u

3. The Microsoft Form will require your CEC student password. A link to set-up directions for CEC email and teams is below.
4. Finally, make sure you have a mask and wear it properly (see below). Bandanas and neck gators are not effective in stopping the spread of COVID.

CECP Academic Success Center Supports:

The Academic Success Center (ASC) is offering math, writing, and science support as well as general academic support in areas such as organization and executive function. **We will have on-campus and online meetings.** If you are interested in setting up a one-on-one appointment, please follow the links below.

Math, Writing, Science, and General academic support from an Academic Success Coordinator is in **room 301. Please note, tutor hours are still being updated.**
