Of course, this is *just a sampling of the types of classes EP hopes to offer*.

WE NEED YOU! We strive to offer exciting and new classes each year, but
it is student enrollment that drives the number and types of classes we can offer!

Everest Point is staffed with professionals who understand and embrace the homeschool community. We recognize the desires of our families, and **we completely support parent choice** in alternative forms of education. We partner with families, recognizing that **you are the primary educator**, to create the best experience possible.

What does a typical day at Everest Point look like?

- Families choose 5 classes that their student will attend for the school year.
- Students rotate through periods 1 - 3 before lunch, and there is a Social Break between P1 and P2.
- Students enjoy an extended lunch designed to provide ample social time, and
- Students then go to their last two periods of the day.

At EP, we recognize that culture and student comfortability enhance an amazing educational experience. For more information, please contact the Program Director at **Pamela.Williams@coloradoearlycolleges.org**
