

# ALZHEIMER'S AND DEMENTIA CARE ECHO PROGRAM FOR PROFESSIONAL CARE PROVIDERS

FREE, INTERACTIVE, EVIDENCE-BASED DEMENTIA EDUCATION

## What is Project ECHO® (Extension for Community Healthcare Outcomes)?

- » Interactive Learning Model: Participate in engaging case-based discussions and brief didactic presentations to address real-life challenges and share experiences.
- » Collaborative Community: Join for six weeks of shared learning and growth in a virtual space where everyone contributes to and benefits from collective real-life knowledge.
- » Sessions include 10-to-12-minute presentations by the expert panel, followed by 45 minutes of real-life case presentations brought by participants.

### What will I gain?

- » Mentoring from experts in the field
- » Peer collaboration for best practices
- » Increased confidence in caring for people living with dementia
- » Open and ongoing access to presentations, research, and resources used during the series
- » Certificate of completion
- » NAB-approved CEUs for administrators offered at no cost to you

### How does it work?

- » Eight weekly, one-hour video sessions
- » Invite appropriate team members to participate in each session
- » Opportunity to submit a case-based learning example for discussion and recommendations
- » Opportunity to share feedback through brief surveys
- » Requires access to a webcam and internet

## Project ECHO is 100% virtual and free to attend!

Submit your registration today by contacting Nicole Atchison, Sr. Specialist, Project ECHO via email: [niatchison@alz.org](mailto:niatchison@alz.org) or by phone: 312-786-5553.

**Reach out today to complete your registration form!**

\*\*Current eligible professional care settings include assisted living communities, nursing homes, and life plan communities (formerly continuing care retirement communities) all with or without specialized dementia services.
