

# Fort Lauderdale Stormwater Program Progress Report

January 2025

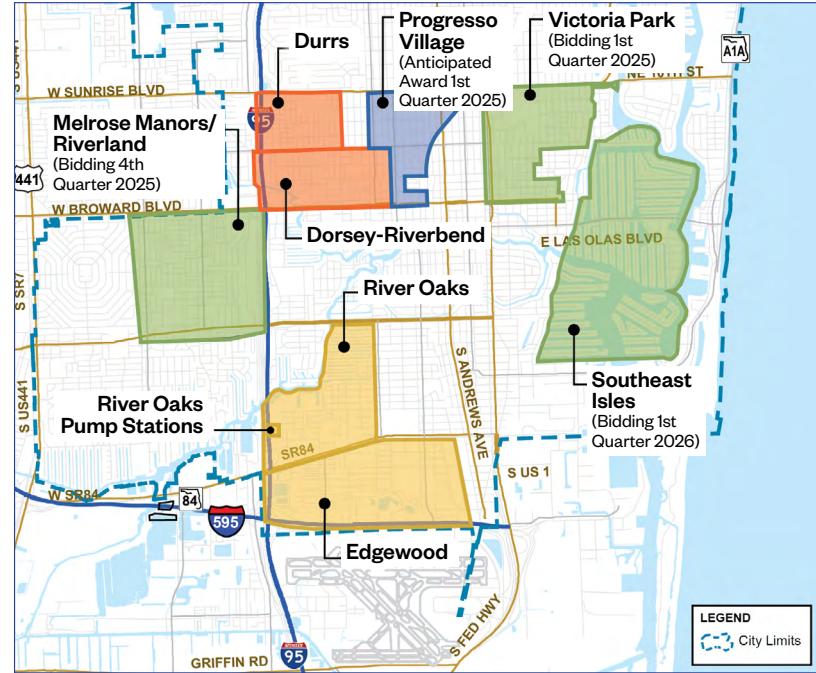

## Work on the Stormwater/Resilience Master Plan continues to progress throughout vulnerable neighborhoods in the City

Updated project progress for Tranche 1 and Tranche 2 neighborhoods is provided below. Work continues on planning efforts associated with the Tranche 2 neighborhoods, including updates to the City's existing stormwater model, allowing simulation of current and future conditions to guide stormwater improvements.

### Tranche 1 Neighborhoods

Project Status Update:

- In Design
- Bid and Award Phase
- In Construction
- Construction Substantially Completed

### Public Outreach Meetings for Tranche 2 Neighborhoods

Public outreach meetings continued during December 2024, with sessions held for Lauderdale Isles, Riverland Woods, Riverland Manors, River Landings, Oak River and Adjoining Areas, and Shady Banks neighborhoods.

Several neighborhood public outreach meetings are scheduled for January, as shown in this table. Please visit the Fortify Lauderdale website for the latest meeting updates.

Neighborhood Meeting	Date
Flagler Village	January 15, 2025
Melrose Park	January 23, 2025
Middle River Terrace and South Middle River	January 28, 2025
Harbour Inlet and Adjoining Areas	January 30, 2025

### River Oaks Stormwater Pump Stations Reach Substantial Completion

The River Oaks stormwater pump stations were substantially completed on December 12th, 2024. Substantial completion marks the stage in construction when all work, excluding punch list items, has been finalized, inspected, and accepted by the City. The City can now operate the pump stations which have a total capacity of 8,600 gallons per minute (gpm) and 56,800 gpm respectively for the inlet and outfall stations. A ribbon-cutting ceremony was held on December 20th to celebrate this milestone.
