

The Professional Development Center continues to serve Titans in our new home on the 2nd floor of McKelvey Campus Center. We welcome you to visit us whenever you are on campus, and we also invite you to participate in PDC services that help current students.

Résumé Review

PDC staff members routinely provide students with résumé assistance, and having additional eyes on students' application materials is always useful. If you would be willing to receive a few electronic résumés each academic year to review and then to provide feedback to students, please contact us at pdc@westminster.edu.

Mock Interviews

Students can benefit from practicing their interview skills. Whether a face-to-face mock interview or one held on Skype, FaceTime or some other technology, you can help our students prepare for their internship or job interviews. Please contact us at pdc@westminster.edu for more details about how you can assist a Titan.

WE-Connect

New this year, we have partnered with Alumni Affairs to create the WE-Connect program. More than 40 seniors are participating in this pilot program that connects them with an alumnus for professional advice and networking. Perhaps you are interested in introducing a current student to your network of colleagues, or offering her professional guidance. Or maybe you are willing to provide a student with advice as he prepares to move to your region (we all needed to know the best grocery store and restaurant in that unfamiliar city or town!). If you would like more information about participating in WE-Connect, please contact us at weconnect@westminster.edu.

Internships and Job Opportunities

If your organization has internship or career opportunities that Titans should know about, please post them to Handshake. Not only can you post your opportunities for our students, but you can also access students' résumés to find qualified Titans who can help your organization. You can find Handshake at <https://westminster.joinhandshake.com>.

Sometimes a student who is completing an internship away from home needs local housing. If you are interested in providing housing to a current Titan intern, please contact us at pdc@westminster.edu.

Are you a 2018 graduate?

We want to hear what you are doing in the months since your graduation. You received an email invitation to complete the 2018 Graduate Survey, and the information you provide is very important for helping Westminster talk about overall student outcomes with our accreditors and those organizations that rank colleges (e.g., *US News*). If you did not receive this email invitation, you can find the 2018 survey at <https://www.surveymonkey.com/r/LWLD7H8>.
