MAMA BEAR APOLOGETICS GUIDE TO SEXUALITY: EMPOWERING YOUR KIDS TO UNDERSTAND AND LIVE OUT GOD'S DESIGN (HARVEST HOUSE PUBLISHERS)

Kids are being fed damaging misinformation about sexuality, gender identity and human biology. As a parents, it's up to us to help our children understand God's truth about these integral concepts in the face of the candy-coated lies that saturate today's world and dominate today's media. In the footsteps of the bestselling *Mama Bear Apologetics* comes this invaluable guide to training our kids to know and respect God's design in a world that has rejected it.

WHAT'S INSIDE

- Understand God's design for gender, sex, marriage and family as a beautiful portrait that reveals the nature of God Himself
- Identify the tactics being used to trick children into adopting an unbiblical view of sexuality under the guise of Christian-sounding words like love, identity, tolerance and justice
- Equip parents to teach kids to treat those who hold different beliefs with gentle, Christlike compassion without compromising biblical values.

POTENTIAL TOPICS

- Biblical sexuality / How the sex talk has changed
- Deconstructing agendas and arguments without demolishing and diminishing people
- What the church is missing in its teaching of sexuality
- How does sex reflect our worldview and how are sexuality and worldview intertwined?
- How the culture is redefining words to advance its agenda
- Sex education in America's schools
- How Christian kids are being tricked and coerced into affirming an unbiblical sexuality
- Tips for addressing pornography, pronouns, gender ideology and other tough topics with kids

AUDIENCE

- Author Hillary Morgan Ferrer says: "Our main demographic is moms, but the information is relevant to both parents and anyone working with youth. Our ideal audience understands that the world we currently live in is not the same as the world in which we grew up and that something more must be done than 'business as usual.' The ideal audience wants to understand how the sexual agenda has permeated so quickly so that they can strategically address the issues in advance with the youth around them."

RELEVANCE

- Our children are being introduced to challenges regarding Christianity earlier than ever before and are inundated with them at school and on media platforms. This will not stop. Therefore, it's up to us to teach them to think for themselves. To think critically and biblically. To discern truth from lies and not just because mom, dad or the church said so, but because they understand God's word and how it applies to everyday situations.
- Volumes of research continue to show that a staggering number of young adults leave the church between the ages of 18-25.
- A record number of U.S. adults self-identify as lesbian, gay, bisexual, transgender or something other than heterosexual, including 21% of Generation Z, [according to a Gallup poll](#).
- Increasing numbers of American churches and mainline denominations are affirming same-sex marriage.
- LGBTQ+ messaging is included in a majority of kids' programs and books. Sex education now includes conversations regarding pronouns as early as kindergarten.
- Average age of porn exposure in kids is between 8-13, and often with a relative, friend, or friend's relative.
- Kids are being told they are bigoted for standing firm on biblical sexuality.

UNIQUENESS

- This book includes not only a teleological view of sexuality and how our understanding of sex reflects our worldview, but it also the ways in which the sexual agenda is being advanced politically, the science and theology behind the biggest pitfalls, and even a critique of how the church has attempted to solve the problem. It is very purposeful in its separation of sexual ideologies from the people who espouse them.
- It teaches critical thinking skills, understanding why ideas are flawed—not just that they are—and in a substantive, accessible way.
- It helps us to teach our kids to think biblically -- i.e., taking what we know from the Bible and understanding how the principles apply every day.
- It explains not just how to face culture's lies about faith, but how to do so while remaining loving, gracious and winsome young men and women.
