

MIKE SIGNORELLI

PASTOR, AUTHOR
NEW YORK CITY

Mike Signorelli serves as the lead pastor and founder of V1 Church, a vibrant and rapidly expanding faith community based in New York City, with additional locations in Long Island, Brooklyn, Miami, and Northwest Indiana. In 2023, Outreach Magazine recognized V1 Church as one of the fastest-growing churches in America.

Born and raised in Hammond, Indiana, Mike experienced a challenging upbringing characterized by poverty, family violence, and personal hardships. After dropping out of high school in the 10th grade to care for his ailing mother, he later earned a GED and graduated from Indiana University–Bloomington, where he taught an undergraduate course in world religion.

As a content creator, Mike engages over five million individuals monthly across various social media platforms, earning YouTube's Silver Play Button in 2022 for surpassing 100,000 subscribers. The author of several well-received books, he also wrote and directed 'The Domino Revival', a 2023 documentary chronicling his life story from impoverished beginnings to leading a global revival.

Mike also founded V1 College, providing leadership and theological training to hundreds of students across 20 nations, and developed The Breakers App, which offers courses in evangelism, healing, prophecy, and deliverance ministry.

A sought-after speaker, Mike addresses audiences at church gatherings, conferences, tent revivals, and festivals worldwide. His teachings frequently explore themes of deliverance, mental health, and spiritual identity, skillfully blending ancient biblical wisdom with contemporary relevance. He advocates for the integration of faith and mental well-being, challenging the stigma that equates mental health struggles with a lack of faith.

Revival is breaking out around the world. Believers and churches are hungry for it--and hungry to know how to shepherd it well. In this groundbreaking book, 10 of today's most influential revivalists—including Alexander Pagani and Jenny Weaver--share what they've witnessed, experienced, and learned on the frontlines of this pivotal period in history. Packed with incredible stories, real-world wisdom, and hands-on tools, this field guide to modern revival covers everything from the theological to the practical, including how to:

- create an atmosphere of revival over a region
- understand the language of revival
- make room for the miraculous
- work in tandem with prophetic and deliverance ministries
- strengthen revival in your church and community
- experience personal revival

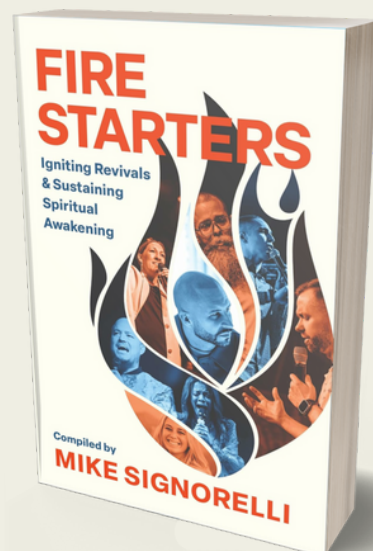

Comprehensive, accessible, and practical, *Fire Starters* will inspire and equip you to partner with the Holy Spirit--and usher in a heart-shifting, nation-shaping move of God.

WHY IS IT RELEVANT?

- Today's revivalists can learn from the successes and mistakes of the leaders of previous revival moments. Compiled by Signorelli, this book brings together wisdom gleaned from sermons and private journals from spiritual giants, intentionally transmitting their knowledge for the first time.
- As institutional Christianity declines—evidenced by [Pew Research](#) showing a rise in "nones" (those unaffiliated with religion) since the 1960s—*Fire Starters* taps into the shift toward decentralized, grassroots spiritual movements. The book's hands-on tools and stories from revivalists empower individuals and small communities to ignite revival locally. This resonates with a generation seeking authentic, experiential faith outside traditional church structures.
- The current political landscape, particularly in the U.S., is marked by a resurgence of faith-based movements influencing public discourse, as seen in the increasing visibility of Christian leaders in political spheres. *Fire Starters* equips readers to "usher in a nation-shaping move of God," providing guidance on how revival can influence communities and cultures. By emphasizing prophetic and deliverance ministries, the book offers a framework for believers to engage spiritually in ways that could impact societal structures, making it highly relevant to those seeking to bridge faith and civic life.
- The world is undergoing a great transition. Recent years have revealed the formation of a global monoculture, facilitated by the internet and the widespread exchange of information. Demonic agendas that threaten the existence of the traditional family are influencing governments and infiltrating educational systems. An entire generation is slipping into despair as moral decay and relativism grip the minds of the masses. Suicide rates are increasing, while fertility rates decline. Under the guise of "freedom," we are being told that we can choose our own fate, apart from the "delusion of God."

SUGGESTED QUESTIONS

- You describe revival breaking out globally. Can you share a specific story from your own experience, perhaps from V1 Church or The Domino Revival, that exemplifies the heart of this movement?
- Recent headlines, like those from CBN News, highlight revivals on college campuses, with thousands of students worshipping and being baptized. How do you see these spontaneous, youth-led movements fitting into the broader revival landscape you discuss in the book?
- The book emphasizes creating an atmosphere of revival over a region. What practical steps can churches or leaders take to foster this environment, especially in communities that seem spiritually dry or resistant?
- The Washington Times reported a potential pause in Christianity's decline in America, with signs of spiritual revival on the horizon. How does *Fire Starters* equip believers to seize this moment and sustain a nation-shaping move of God?
- The book covers the "language of revival." Can you explain what this means and how understanding it helps believers and churches navigate the Holy Spirit's work in this season?
- Outreach Magazine recognized V1 Church as one of America's fastest-growing churches. What lessons from your church's growth are included in *Fire Starters* to help other pastors strengthen revival in their communities?
- The book aims to inspire personal revival. What advice do you and your co-authors offer to individuals who feel spiritually stagnant but want to experience a fresh encounter with the Holy Spirit?
- Premier Christianity notes that revivals often occur in places of persecution or poverty, where believers rely solely on God. How can Western churches, often comfortable or distracted, cultivate the same hunger for revival?
- The Assemblies of God emphasizes that revival involves both divine and human activity. How does *Fire Starters* guide readers to partner with the Holy Spirit while avoiding the temptation to "manufacture" revival?

For generations, many of God's greatest leaders have departed this world with the baton still clutched in their hands, unable or unwilling to pass on their unique lessons—be those failures or successes. What if there existed a book that could serve as that baton? Imagine the possibility of being mentored by leading revivalists and movement makers from previous eras, engaging in conversations about their personal failures and public triumphs. Picture yourself pulling up a seat, as if they were speaking directly to you, receiving wisdom that cost them entire seasons of their lives. While we have access to sermons and private journals from the spiritual giants of old, there hasn't been a comparable level of intentionality in transmitting their knowledge, until now.

Fire starters, those anointed individuals who could discern how to transform desperate and dry conditions into smoldering embers have revolutionized our perspectives, methodologies, and perceptions in both culture and the expression of the kingdom of heaven on earth. They possessed the ability to nurture embers and fan smoldering circumstances into flames of revival. These visionaries knew how to kindle seemingly insignificant sparks until they blazed into full-fledged movements. But what happens when the art of making fire isn't transmitted to the next generation? What are the consequences when only fragmented and isolated strategies are passed on? We find ourselves doomed to learn the hard way, "pioneering" when we should be inheriting!

As I write this, the world is undergoing a great transition. My international travels over the past several years have revealed the formation of a global monoculture, facilitated by the internet and the widespread exchange of information. Demonic agendas that threaten the existence of the traditional family are influencing governments and infiltrating educational systems. An entire generation is slipping into despair as moral decay and relativism grip the minds of the masses. Suicide rates are increasing, while fertility rates decline. Under the guise of "freedom," we are being told that we can choose our own fate, apart from the "delusion of God." Yet in the midst of this confusion and uncertainty, a special hunger is rising. Despite the narratives and propagation of human agendas, a remnant is yearning for God. In defiance of being told that we are gods ourselves, that God doesn't exist, or that nature is God, many are turning to Jesus Christ—the only true and living God.

Fire starters don't curse dry ground; they strike it and create a spark! They don't merely diagnose the environment and complain; they assess and execute until the change becomes a reality. What feels like uncertainty to the world is identified as opportunity by a fire starter. What appears impossible to the world is recognized as God's divine opportunity by these burning ones.

There are many in my generation who share this calling to be fire starters. I'm privileged to pursue this high calling alongside them. God assembles teams with each member carrying a revelation of heaven's DNA and expressing an aspect of Christ's ministry on earth through the Holy Spirit.

"We find ourselves doomed to learn the hard way, "pioneering" when we should be inheriting!"

While the finite pages of this book couldn't possibly contain the totality of what there is to learn from this generation, I believe the Holy Spirit has highlighted what needs to be passed on as an inheritance to you.

As you read this, know that we are counting on you. Heaven is counting on you. Your "yes," lockstep with Jesus Christ, is all that is needed to fan the flames.

This book serves as a bridge between generations, a conduit for the wisdom of the past to reignite the fires of the future. It is an invitation to join the ranks of fire starters, to learn from their triumphs and tribulations, and to carry the flame of revival into a world desperate for divine intervention. As you turn these pages, may you not only receive the baton, but may you also be empowered to run your leg of this spiritual relay with passion and purpose. I want to encourage you as you journey through these pages. I believe that learning from the Fire Starters in this book will be one of the most clarifying experiences concerning your role in the Body of Christ and your position in history. We are examining the past in order to empower you to create the future.

ENDORSEMENTS

“Once-in-a-generation leader Mike Signorelli and his catalyst of clarion warriors deliver a treasure trove of tactical insights marshaled to empower and sustain lasting revival! Fire Starters pulls no punches as each tenured voice unleashes revelation power destined to advance revival in your own life. Prepare to be spiritually weaponized for kingdom longevity!”

Joseph Z

Author, Broadcaster, Prophetic Voice, JosephZ.com

“I have profound respect for Mike Signorelli for many reasons, but I must say the term ‘fire starter’ is perhaps the greatest description I’ve heard to describe him. He, his wife, and their ministry have been used by God to light powerful spiritual fires that have driven back darkness and set people ablaze for Jesus by the power of the Holy Spirit. If anyone is qualified to skillfully compile the material you are about to read in this book, it is Mike. I urge you to read it, as I have done, from beginning to end and to ask God to make you a fire starter for this generation!”

Rick Renner

Minister, Author, Broadcaster / Moscow, Russia

“The spirit of revival is more easily caught than taught. To become a true fire starter, you need impartation more than information because it requires a transfer of spiritual DNA. In a world desperate for something real, this book will serve as a spark in hungry hearts. Mike Signorelli has gathered voices who don’t just talk revival... they breathe it. Like firebrands tied to foxes’ tails, these words will ignite wherever they land. If you’ve ever cried out, ‘Where are the Elijahs of our day?’, look no further. They are here, and they are passing you the torch. Read it. Carry it. Burn with it.”
