ACU CULTURAL RESEARCH CENTER

The very foundations of western civilization are being attacked. America is abandoning the values upon which it was founded. In the timespan of a single generation, the vast majority of American young men and women are no longer introduced to a biblical worldview, and the consequences are evident in the media every day. The Cultural Research Center was formed by Arizona Christian University, in partnership with Dr. George Barna, one of the most respected researchers in America, to produce credible, non-partisan research and analysis establishing the transformational impact of a biblical worldview on American culture.
