

Mad Science Summer 2019 Programs

Held at **Bendheim Western Greenwich Civic Center**

(449 Pemberwick Rd, Greenwich, CT 06831)

NASA: Journey into Outer Space

(Entering Grades 1-6) June 24 – June 28

Blast off this summer with the only camp designed and created specifically by NASA Engineers for Mad Science! This camp will be out of this world with rockets that every camper will build and launch themselves! Campers will take a voyage to see a comet right before their very eyes and explore the mysterious world of the sun, planets, and moons! Children will create a satellite and overcome challenges while in training to become an astronaut! Campers will have NASA take homes every day that will brighten their whole summer!

Science Potions & Explosions

(Entering Grades 1-6) August 12 – August 16

Come: Fizz, Pop, Boom with Mad Science this summer! We will be testing everything from warm Ooey, Gooney Slime to freezing, cold Dry Ice! In this awesome Mad Science program, each day we will take you on a journey through hands-on and amazing science! Create crazy chemical reactions that explode and crackle and even experiments that glow in the dark! Piece by piece throughout our program you will get to put together your very own home lab, complete with beakers, test tubes and all the tools of a great Mad Scientist! Don't miss out on Science Potions and Explosions Camp!

Anatomy Academy

(Entering Grades 2-6) August 19 – August 23

Let's dig our hands inside what is inside of us! Campers will build a stethoscope to become a junior physician and navigate the systems in our human bodies! They will get a hands-on exploration of bones while working together to assemble a model skeleton! Every camper will create MAD Mucus and use micro slide viewers to catch a glimpse of the life of tiny cellular machines that the human body needs to function! This camp is both fun and educational!
