# INSTRUCTIONS FOR COMPLETING CORPORATE FLEET SAFETY CONTEST FORM

1. To enter the 2022 ATA Corporate Fleet Safety Contest, all contestants must be current for-hire or private carrier members in good standing with the Arkansas Trucking Association.
2. All contestants must submit reports of their mileage and accident experience for the year 2022 on the form provided by ATA. This form may be photocopied.
3. Be sure to complete all of the information. Select the contest division you are entering; do not write in your own. For a company to enter more than one division, mileage and accident records must be kept separately. You must also file an additional report for each category entered.
4. Awards will be based on DOT reportable accidents, one winner per division, per mileage category. In the event of a tie, we will go to all accidents. In the event that a tie still remains, the company with the most Arkansas miles will be awarded top prize.
5. All Accidents  
Except as noted below, all accidents are reportable for purposes of tabulating all accidents. The definition of an accident includes any property damage, regardless of preventability, severity, fault or location. This does not mean that ordinary wear and tear is to be reported. Contact of bumpers while parking vehicles or any other incidents that may, over a long period of time, lead to an accumulation of small scratches of the normal wear and tear type are not to be reported. However, the bending, crushing or breaking of a bumper is not a wear and tear incident.
6. Excluded from All Accidents
  - A. Those in which the fleet vehicle was legally parked
  - B. Debris thrown up by tires
  - C. Objects falling from overhead such as ice, snow, tree limbs, etc.
  - D. Collisions with animals in which damage is limited to either the animal or from the collision with the animal
  - E. Those involving fleet operated passenger cars and miscellaneous vehicles such as service trucks or wreckers
7. Frequency rates shall be reported in terms of the number of accidents occurring in Arkansas per million vehicle miles traveled in Arkansas (not miles traveled by Arkansas-based drivers), to be determined by the following formula:  
  
$$\text{Frequency Rate} = \frac{\text{Total Fleet Vehicle Accidents in Arkansas} \times 1,000,000}{\text{Total Fleet Vehicle Miles Traveled in Arkansas}}$$
8. Please take care to enter your company in the proper classification. Companies entering in the wrong category will be disqualified.
9. Include a copy of your company's crash activity detail by downloading, printing and attaching the report generated within CSA's Crash BASIC. The report must be downloaded within 30 days of submission of the entry form.

**Deadline for entering is MONDAY, MARCH 20, 2023.**
