

Requirement Driven Services

Virtual IT Manager

IT Project Manager

We deliver proactive flat-rate IT Managed services in London & Heathrow. Designed to reduce your costs, increase your profits and mitigate your business risks. We partner with you as your virtual IT Department, allowing you to focus on running your business, not your technology. This could be additional to existing IT services or working in conjunction with an existing IT department.

Hardware

Whether you need advice on purchasing a laptop or a high end enterprise server, we can advise and supply the IT equipment. Our services are tailored to your business requirements, so this can be replacing two laptops or even a full overhaul of the existing IT equipment.

Remote Working

Do not let your business suffer with physical location dependencies for office work. We can provide you Cloud solutions for your business to really take advantage of the Cloud and its many services. Especially in today's uncertain environment, never has IT been so essential for an active business.

Cyber Security

Hacking, Ransomware, Phishing, Cyber espionage, Data leaks and Social engineering. The dynamics of digital security is constantly shifting and customers are increasingly exposed to more threats. We work together with you to tackle the ever-changing security landscape and build a comprehensive solution that will address the full spectrum of your business security requirements.
